Thank God For The Atom Bomb And Other Essays:

Thank God for the Atom Bomb, and Other Essays Paul Fussell, 1990 This is not a book to promote tranquility and readers in quest of peace of mind should look elsewhere writes Paul Fussell in the foreword to this original sharp tart and thoroughly engaging work The celebrated author focuses his lethal wit on habitual euphemizers artistically pretentious third rate novelists sexual puritans and the Disneyfiers of life He moves from the inflammatory title piece on the morality of dropping the bomb on Hiroshima to a hilarious disquisition on the naturist movement to essays on the meaning of the Indy 500 race on George Orwell and on the shift in men s chivalric impulses toward their mothers Fussell s frighteningly acute eye for the manners mores and cultural tastes of Americans The New York Times Book Review is abundantly evident in this entertaining dissection of the enemies of truth beauty and justice

War and Press Freedom Jeffery A. Smith,1999-02-25 War and Press Freedom The Problem of Prerogative Power is a groundbreaking and provocative study of one of the most perplexing civil liberties issues in American history What authority does or should the government have to control press coverage and commentary in wartime First Amendment scholar Jeffery A Smith shows convincingly that no such extraordinary power exists under the Constitution and that officials have had to rely on claiming the existence of an autocratic higher law of survival Smith carefully surveys the development of statutory restrictions and military regulations for the news media from the ratification of the Bill of Rights in 1791 through the Gulf War of 1991 He concludes that the armed forces can justify refusal to divulge a narrow range of defense secrets but that imposing other restrictions is unwise unnecessary and unconstitutional In any event as electronic communication becomes almost impossible to constrain soldiers and journalists must learn how to respect each other s obligations in a democratic system
