Thanksgiving Address Greetings To The Natural World:

Thanksgiving Address, 1993 Thanksgiving Address John Stokes, 1996-11 These traditional Native American words of thanksgiving come from the people of the Six Nations the Mohawk Oneida Onondaga Cayuga Seneca and Tuscarora also known as the Iroquois or Haudenosaunee who live in upstate New York Wisconsin and Canada Spoken as a spiritual address to the powers of the natural world these words are used to open gatherings in order to bring the minds of the people together as one and align the gathered minds with Nature The roots of these words reach back thousands of years to the very origins of the Haudenosaunee as a people Publisher's description **Native American Rhetoric** Lawrence W.

Gross, 2021-12-15 Native American Rhetoric is the first book to explore rhetorical traditions from within individual Native communities and Native languages The essays set a new standard for how rhetoric is talked about written about and taught The contributors argue that Native rhetorical practices have their own interior logic which is grounded in the morality and religion of their given traditions Once we understand the ways in which Native rhetorical practices are rooted in culture and tradition the phenomenological expression of the speech patterns becomes clear The value of Native communities and their languages is underlined throughout the essays Lawrence W Gross and the contributors successfully represent several but not all Native communities across the United States and Mexico including the Haudenosaunee Anishinaabe Choctaw Nahua Chickasaw and Chicana Tohono O'odham Navajo Apache Hupa Lower Coast Salish Koyukon Tlingit and Nez Perce Native American Rhetoric will be an essential resource for continued discussions of Native American rhetorical practices in and beyond the discipline of rhetoric All the Agents and Saints Stephanie Elizondo Griest, 2017-05-08 After a decade of

chasing stories around the globe intrepid travel writer Stephanie Elizondo Griest followed the magnetic pull home only to discover that her native South Texas had been radically transformed in her absence Ravaged by drug wars and barricaded by an eighteen foot steel wall her ancestral land had become the nation's foremost crossing ground for undocumented workers many of whom perished along the way The frequency of these tragedies seemed like a terrible coincidence before Elizondo Griest moved to the New York Canada borderlands Once she began to meet Mohawks from the Akwesasne Nation however she recognized striking parallels to life on the southern border Having lost their land through devious treaties their mother tongues at English only schools and their traditional occupations through capitalist ventures Tejanos and Mohawks alike struggle under the legacy of colonialism Toxic industries surround their neighborhoods while the U S Border Patrol militarizes them Combating these forces are legions of artists and activists devoted to preserving their indigenous cultures Complex belief systems meanwhile conjure miracles In *All the Agents and Saints* Elizondo Griest weaves seven years of stories into a meditation on the existential impact of international borderlines by illuminating the spaces in between and the people who live there **Braiding Sweetgrass for Young Adults** Robin Wall Kimmerer, Monique Gray Smith, 2022-11-01

Return to Mindfulness Shalini Bahl, 2024-01-18. Trying to Stay Mindful in a World Full of Disruptions. Mindfulness is our innate capacity to know what it means to be present, to see clearly, and to connect with ourselves and each other so that we can make fulfilling choices. The act of returning to mindfulness should be effortless, but persistent default habits can and do get in our way. Many people successfully practice mindfulness through meditation for stress reduction, but once back into daily life, the same people quickly lose momentum. The brief moments of calm just don't last or manifest themselves in changes at personal or collective levels. Shalini Bahl wants to change all that. *The Missing Piece: Why Non-Judging Awareness Isn't Enough*. Mindfulness is commonly described as non-judging awareness, but when tough decisions arise, suspending judgment can confuse more than clarify. Dr. Bahl proposes that the way to be mindful in the real world, beyond meditation and non-judging awareness, is to foster eight mindfulness skills that disrupt habits that have been shaped by evolution and our environment. These default habits keep us rushing and reacting instead of seeing clearly and acting intentionally.

A Systematic and Playful Blueprint for Real World Mindfulness. Dr. Bahl doesn't just invite us to be more mindful; she shows us how. She offers a systematic yet playful blueprint for integrating mindfulness into our daily routine. Each chapter is dedicated to one mindfulness skill and includes six exercises to practice and play with during the day so we can replace default habits with mindful habits.

Eight Powerful Skills. Her groundbreaking methods help dissolve the gap between meditation and real world mindfulness through the following eight skills: Awareness when we find ourselves automatically reacting; Compassion when we're feeling judgmental; Curiosity when we're stuck in an echo chamber; Mindful energy when it's uncomfortable to change old ways of thinking and acting; Appreciative joy when negativity bias distorts our understanding of people and situations; Inner calm when attachments get in the way of seeing clearly; Focus when we're feeling distracted and overwhelmed; Equanimity when impulsivity pushes us out of balance. Dr. Bahl's eight interconnected skills empower leaders to drive change without burnout or backlash while inviting the rest of us to live, love, and work with greater care.

Make Mindfulness Your New Normal. Make these skills your new normal in a world full of disruptions. Read this book and replace reactionary habits with responsive awareness, starting now.
