The 2003 Federal Budget Conflicting Tensions:

Health Services Restructuring in Canada Charles M. Beach, Richard Chaykowski, Shortt, 2007-01-18 The recent Chaoulli Supreme Court decision and health care proposals by Quebec and Alberta have led to renewed debate on how best to restructure the Canadian health care system This volume offers a timely analysis of access and wait times alternative modes of health care delivery and funding methods from the perspective of evidence based policy making **The 2003 Federal Budget** John Deutsch Institute for the Study of Economic Policy, 2004 The 2003 Federal Budget was the first for a new Minister of Finance who was running for higher office and likely the last of an outgoing long time Prime Minister It thus represents the outcome of many conflicting tensions within a context of a rapidly changing political economic and international environment The papers in this volume arising from an April 2003 conference on the Budget examine the political context and economic context informing the Budget and quantitatively evaluate the impact of the overall Budget package on the Canadian economy the different economic regions and the fiscal health of public accounts On the one hand are political pressures for long term legacy commitments while on the other is the fiscal reality of a slowdown in growth of the Canadian economy and the immediacy of public resources to be devoted to health and to post 9 11 security concerns Specific attention is devoted to fiscal aspects of Kyoto health and social policy and tax changes from the current and longer run perspective The volume also looks at recent changes in budgetary accounting practices brought in with this Budget full accrual accounting and changes in transparency in recent years budgets **Choice of Force** David Last, Bernd Horn, 2005-05-01 Twenty years from now security issues may dictate that counter terrorism is more important than operations to secure stability and rule of law Security at the border ethnic demography and the perspective of the next generation will determine what strategic choices Canada will make about special military operations and the elite forces developed to carry out special missions *Thinking Outside the Box* Keith G. Banting, Richard P. Chaykowski, Steven F. Lehrer, 2015-11-30 Building on the work presented in Styran and Taylor's This Great National Object which told the story of the first three Welland canals built in the nineteenth century This Colossal Project chronicles an impressive milestone in the history of Canadian technological achievement and nation building **Canadian Fiscal Arrangements** Harvey Lazar, 2005-08-18 The key issues in fiscal federalism will be debated once again when the federal government the provinces and the territories return to the negotiating table Ottawa has appointed an expert panel on equalization and territorial formula financing and the provinces and territories have established an advisory panel on fiscal imbalance Both will report in the first half of 2006 after which the negotiating pace will accelerate In a timely collection contributors from the government and academia tackle these fiscal policy issues from a broad spectrum of perspectives **The Elgar Companion to Public Economics** Attiat F. Ott, Richard J. Cebula, 2006-01-01 Attiat Ott and Richard Cebula have recognised the need to present in an accessible and straightforward way the voluminous literature in the public economics arena Advances in econometric

techniques and the spillover of knowledge from other disciplines made it difficult not only for students but also for lecturers to accurately find the information they need This major Companion addresses a wealth of topics common to the study of both public economics and public choice including questions such as How does one structure the whole spectrum of public finance in a manageable framework What is Wagner s Law really about and what does empirical testing tell us How binding is the budget constraint How encompassing is a dictator s interest How do veto powers of the executive institutional structures and regimes affect public sector outcomes Do voters behave rationally Do conflicts yield benefits Is war cost effective and does secession offer a viable exit option The contributions both theoretical and empirical shed light on some contentious issues in the public economics literature and provide readers with insight into issues that are at the forefront of discussions about the public economy The empirical analysis utilizes recent econometric techniques to validate or refute empirical findings based on older vintage econometrics The diversity of coverage ranges from traditional models of the public economy to the incorporation of defence spending as a significant and often neglected function of the public sector The contributors include many pioneers and leading lights in the field The Elgar Companion to Public Economics will be required reading for academics and scholars at many levels in the fields of public economics and public choice but mainly graduate and above The Companion will also be of value to scholars in the wider social sciences in general and political science in particular The 2006 Federal Budget Charles M. Beach, Thomas A. Wilson, Michael Smart, 2007 The 2006 federal budget was the first for a new Conservative minority government led by a prime minister from the west As a platform for implementing distinctive election promises the 2006 budget offered ample opportunity for rethinking fiscal priorities in Canada such as cutting the GST addressing fiscal imbalance with the provinces and finding a different approach to childcare and child benefits The papers in this volume examine the political and economic context informing the 2006 budget as well as lessons from recent U S tax policy debates and a quantitative evaluation of the impact of the overall budget package on the Canadian economy Special attention is devoted to alternative federal tax structures fiscal imbalance and the recent federal Blue Ribbon report Contributors also look at the new federal policy on childcare and child benefits how the budget relates to productivity and competitiveness and general sustainability of the new fiscal plan **Governance, Development and Conflict** Manas

Chatterji, Darvesh Gopal, Savita Singh, 2011-08-17 A considerable amount of work has been conducted in the field of peace studies conflict management peace science in economics sociology anthropology and management This title presents research with an emphasis on theoretical and mathematical constructs in the area of peace economics peace science

Defense Spending, Natural Resources, and Conflict Christos Kollias, Hamid E. Ali, 2017-10-02 This book is an intellectual contribution of policy scientists and researchers from different academic institutions in different parts of the world The Arab Spring the rise of ISIS and terrorism ignite the debate on studying conflict and natural resources Uniquely the book discusses the sources of the conflicts and the institutions that are managing the conflicts The natural resources defense

spending conflict and human welfare are intertwined In support of the resource curse hypothesis the book shows that an abundance of natural resources particularly oil encourages an increase in military spending and lower economic growth In addition the good economic and political institutions do reduce the hazard of conflict and strong political institutions for checks and balances appear to weaken the impact of natural resources on conflicts The book also examines the relationship between defense and social welfare expenditures specifically health and education Shedding light on the complicated nature of the relationship between defense spending inequality and types of political and welfare regimes gives us a deeper understanding of the type of democratic systems that will likely improve social welfare In studying the political economy of defense spending the book shows the link between public opinion toward defense spending and voters support for candidates The analysis shows that party identification or having a vested interest in defense industries do correlate with a preference for increasing defense spending This book was published as a special issue of Defence and Peace Economics
