The Abortion Question:

The Abortion Question Hyman Rodman, Betty Sarvis, Joy Walker Bonar, 1987 Available for the first time in English this is the definitive account of the practice of sexual slavery the Japanese military perpetrated during World War II by the researcher principally responsible for exposing the Japanese government's responsibility for these atrocities The large scale imprisonment and rape of thousands of women who were euphemistically called comfort women by the Japanese military first seized public attention in 1991 when three Korean women filed suit in a Tokyo District Court stating that they had been forced into sexual servitude and demanding compensation Since then the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan much if it inspired by Yoshimi's investigations How large a role did the military and by extension the government play in setting up and administering these camps What type of compensation if any are the victimized women due These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history and are central to efforts to transform Japanese ways of remembering the war Yoshimi Yoshiaki provides a wealth of documentation and testimony to prove the existence of some 2 000 centers where as many as 200 000 Korean Filipina Taiwanese Indonesian Burmese Dutch Australian and some Japanese women were restrained for months and forced to engage in sexual activity with Japanese military personnel Many of the women were teenagers some as young as fourteen To date the Japanese government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women This English edition updates the Japanese edition originally published in 1995 and includes introductions by both the author and the translator placing the story in context for American readers *The Abortion Question?* Sehon Sylvester Goodridge, 1978 Selection and Confirmation of Federal Judges United States. Congress. Senate. Committee on the Judiciary, 1979 *Taking Christian Moral Thought Seriously* Jeremy A. Evans, 2011-10 Christian scholars make a clear case for the legitimacy of religious beliefs in the marketplace of ideas addressing the theory of public reason voting in America environmentalism abortion education and more **Litigating the Politics of Human Rights** Sonja C. Grover, 2025-02-24 The cases analysed involve litigation concerning a disparate range of contemporary US culture wars including equity in access to public services unrestricted by religious bias resistance to the teaching of historical facts relating to racial tensions in America including the so called critical race theory debate the right of schoolchildren to exposure concerning a diversity of views current USSC litigation about US university admissions policy that considers race ethnicity as one factor amongst many in admission contemporary cases concerning the constitutionality of US abortion law grounded on *Roe v Wade* and the scope of State and indigenous sovereign powers These contemporary culture war US landmark cases are then compared to similar cases in non US jurisdictions and courts to consider in more depth the underlying core issues in these cases The book highlights the risk to a democracy of recasting fundamental human rights litigation as essentially nothing more than the sorting out of political

quagmires and cultural conflicts best left to the discretion of government rather than the courts Then the major risk is that constitutional controversies will increasingly not be decided by an independent judiciary but rather by self interested politicians as the courts more often than not decline to weigh in on highly sensitive human rights controversies A further risk is that instead such cases will be decided through a judicial majoritarian political lens rather than a largely apolitical consensus judicial opinion constructed by both philosophically left leaning so called liberal and right leaning so called conservative jurists

Democracy and Decision Geoffrey Brennan,Loren Lomasky,1997-03-13 The significance of this account should be clear If as economists frequently assert proper diagnosis of the disease is a crucial prerequisite to treatment then the design of appropriate democratic institutions depends critically on a coherent analysis of the way the electoral process works and the perversities to which it is prone The claim is that the interest based account incorrectly diagnoses the disease Accordingly this book ends with an account of the institutional protections that go with expressive voting
