**Energy Research Abstracts** ,1978      Biotechniques for Air Pollution Abatement and Odour Control Policies A.J. Dragt,J. van Ham,1992-06-26 The increasing concern for odour abatement and more generally for reduction of air pollution has caused a rapid growth in the development of air pollution control techniques several of which are based on biological degradation of the polluting compounds This book presents a state of the art overview of recent developments in biological techniques for air pollution control It describes in detail processes for the prevention of odour nuisances and reduction of odour emissions It also deals with process design and construction of equipment as well as with odour policy measurements at an international level      **Costs of Ammonia Abatement and the Climate Co-Benefits** Stefan Reis,Clare Howard,Mark A. Sutton,2015-05-19 This book examines the costs involved in reducing ammonia emissions from agricultural practices as well as the potential benefits for climate change mitigation It features contributions by experts in agricultural production processes producers of agricultural equipment and service providers as well as scientists who assess the issue from an European perspective Coverage examines all agricultural production stages starting from animal feed and housing including the storage and application of liquid and solid manure and of mineral fertilizer In addition the book looks at the relationship between ammonia control and greenhouse gas emissions and details the GAINS Greenhouse Gas and Air Pollution Interactions and Synergies model for estimating costs and reducing ammonia emissions from agriculture Examples and case studies from select European countries including Italy Switzerland Russia Ireland and Spain provide readers with detailed studies of ammonia abatement costs and the effectiveness of implementing control measures under different conditions This book is the result of an Expert Workshop held under the auspices of the UNECE Convention on Long range Transboundary Air Pollution CLRTAP and organised by the Task Force on Reactive Nitrogen TFRN The findings of this workshop have informed the development of documents supporting the revision of the Gothenburg Protocol and provided researchers and practitioners with vital new data Bringing together a wealth of key information on the costs of ammonia abatement and the climate co benefits this monograph provides readers with deep insight into this complex issue      The Asbestos School Hazard Abatement Act of 1984-- Oversight United States.
