The 100 Greatest Jews in Sports B. P. Robert Stephen Silverman, 2003-09-22 The 100 Greatest Jews in Sports takes the greatest Jewish athletes in all major sports from the past eleven decades and ranks them against each other using a limited scope and quantitative criteria Each decade has seen someone new emerge as the greatest Jewish athlete from boxer Abe Attell to baseballs Sandy Koufax and Ken Holtzman to golf s Amy Alcott to footballs Harris Barton Sports profiled include baseball basketball hockey tennis golf auto racing boxing soccer football swimming and many others Silverman takes a scholarly approach to ensure reliability and validity of the statistics given The author identified the most common categories of statistics in which the highest paid athletes in all sports had excelled and he assigned numeric values to reflect the performance categories That provided a proportional representation of the most important individual accomplishments in sports By applying those numbers to the records of selected athletes each was ranked against the other Additionally the author asked selected experts of each sport to perform the same ranking with no specific criteria and the results were the same Filled with historic photographs of the athletes profiled and interspersed with interesting tidbits of each athlete s personal life and career this book is certain to be of interest to the casual to serious sports enthusiast alike

The 100 Greatest Boxers of All Time Bert Randolph Sugar, 1984 *Boxing's Greatest Fighters* Bert Randolph Sugar, 2006-01-01 Easily the most enduring of all sports questions is Who was is the best Perhaps in no sport is the question more asked and argued over than in boxing And in boxing perhaps none is more qualified to answer the question than Bert Randolph Sugar In *Boxing s Greatest Fighters* not only does the former publisher of Ring Magazine tell us who the best

fighters were he lists them in order Could Sugar Ray Robinson have beaten Muhammad Ali Could Sugar Ray Leonard have beaten Sonny Liston The answer most experts agree would be no But what if as Bert Sugar has done here one were to take all the boxers and reduce them in the mind s eye to the same height the same weight and the same ring conditions The answers would be quite different And while some fans may express outrage that Rocky Marciano barely makes the top twenty and Marvin Hagler staggers into the top seventy five others will nod eagerly when they read that Harry Greb and Benny Leonard were better than just about anybody So whether you read Boxing s Greatest Fighters cover to cover pick your favorites at random or simply browse through the many rare photographs at the bell come out arguing **The 100**

Porter,1995-10-30 African American athletes have played a significant role in the development and popularity of American professional sports and have encountered numerous obstacles on the road to athletic success This is the first

comprehensive multi sport biographical dictionary of African Americans who reached the pinnacles of success in their sport. It contains more personal and career profiles of African American sports greats than are found in any other single source. Biographical profiles of 166 noted athletes, coaches and administrators in team and individual sports include both historical figures such as Jesse Owens and Satchel Paige and contemporary stars such as Charles Barkley, Ken Griffey Jr, Michael Jordan, Jackie Joyner Kersee, Shaquille O'Neal and Emmitt Smith. Forty-four sports historians contributed the colorfully written biographies which blend both personal background information and athletic career accomplishments. All information is current through the middle of 1995. The dictionary covers the contributions made by African American greats in football, baseball, basketball, track and field, boxing, wrestling, auto and stock car racing, golf, thoroughbred racing, tennis, cycling and figure skating. More than two thirds of the entries represent team sports. The dictionary is organized alphabetically by person. Each colorfully written profile is 800-1,000 words in length and traces the subject's personal life, family and educational background, personal struggles, career accomplishments, records, set, statistical data, awards and honors and overall impact and features lively quotations by and about the sports luminaries. Each entry contains a handy bibliography of books and articles about the subject. Biographies of managers, coaches and club executives describe their teams, statistical achievements, accomplishments, strategy and sports impact. A general introduction traces the historic struggle of African American athletes in professional and Olympic sports and appendices provide alphabetical listings of biographical entries and entries by sport. A selection of photos complement the profiles. For the sports fan or librarian, this is a first stop for biographical information that captures the personality of the athlete and includes all the pertinent information about his or her accomplishments. It is an essential addition to the reference sections of junior high, high school and public libraries.

Historical Dictionary of Boxing

John Grasso, 2013-11-14. Boxing is one of the oldest sports in the world, reaching back to the Ancient Greeks, although it has become popular only in the past century or so. But in some ways it is a rather complicated sport since to avoid unnecessary harm it has been endowed with rules to keep it clean, referees to see the rules are obeyed and organizations to regulate the sport. Boxing was once largely amateur, although the professional bouts attracted the most attention, but now it is also an Olympic sport. And over the years there has been one champion after another who symbolized what boxing was all about, such as Joe Louis, Muhammad Ali and Cassius Clay. Naturally these champions are the focus of the Historical Dictionary of Boxing as well, and they have the biggest entries in the dictionary section, but they had to fight against someone and there are dozens and dozens of other boxers with smaller entries. More of these boxers come from the United States than elsewhere, but there are others from Europe, Asia and Latin America, and there are also entries on the major boxing countries as well. Plus entries on the rules, on the organizations and on the technical terminology and jargon you have to know just to follow the bouts. The introduction provides a broad view of boxing's history while the chronology traces events from 688 B.C. to 2012 A.D. Not all that much has been written on boxing that is not ephemeral, but much of that literature can be found in the bibliography. This

book is an excellent access point for students researchers and anyone wanting to know more about the sport of boxing
