volumes on Education Travel and subjects of general human interest not at present adequately covered by single books The purpose is to bring together in a convenient form trustworthy information that will give a general all round critical view of the subject with no hesitancy in telling more than the conventional truths The plan contemplates annual revisions sparing no effort or expense in investigation and editing until a definitive form has been attained There is need for such carefully prepared books On many subjects there is lack of coordinated easily accessible information that will meet modern demands These books endeavor to give a complete orientation on each subject Specialists would never write them Publishers have not produced them If prepared with sufficient care they cannot pay in the first editions This second edition of the Handbook of Private Schools is a complete reconstruction of the earlier one approximating more nearly the definitive form Much study has been given to technical features A paper has been selected which has the advantages of compactness and opacity and that takes halftones well without reflecting the light The new type chosen after much study with the best expert advice gives the maximum of legibility with the maximum number of words in a given space Although claimed by its makers to be the best face cut it has been little used because it does not run into pages fast enough to suit the usual book maker A Handbook of American Colleges and Universities will be the second of the Series on Education Material for this has been collecting during the Past year A Handbook on the Education of Young Children is planned to complete the trilogy on the years of adolescent education Simultaneously with this edition appears the second of the series A HANDBOOK OF NEW ENGLAND a volume of 840 pages critically descriptive of town and country in all phases of human interest Other books are planned or projected which if well received may eventually cover the United States Much material has already been brought together for a Handbook of the Middle States The return of peace and normal interests may make possible the publication of the Handbooks originally planned on travel subjects for which material was accumulated in foreign fields during ten years A Handbook of Rome practically ready for the press for the past two years is intended to be a sort of laboratory manual and source book collated from the best that has been written on the subject during the last 2000 years
