The Herald Of Coming Good:

The Herald of Coming Good George Ivanovich Gurdjieff, 2020-09-28 A highly original and to me even troublingly strange coincidence of several very denned and entirely different factors arising out of my activity and having bearing upon today not only compels but also inspires me to mark this day by a refusal to bide a more convenient time and by an intention to begin on this very day an exposition of the first of the seven appeals which among others I decided to address during my period of activity as a writer to the whole of contemporary humanity I shall begin by explaining the particular nature of this strange coincidence First of all expounding as I have done night and day for almost ten years all kinds of fragments of the general mass of information intended by me for publication I have as it happens finished only this day a preliminary compilation of the material designed for this purpose Secondly engaged as I have been in the course of the last three years in the completion parallel to this of the first series of writings intended to head the list of my publications I have also finally completed this work on precisely this day Thirdly and finally today is the last day of the term I had assigned to myself twenty one years ago of the term during which I had according to the special oath I took bound myself in my conscience to lead in some ways an artificial life modelled upon a programme which had been previously planned in accordance with certain definite principles Before venturing to unfold the very substance of my first appeal to contemporary humanity I count it essential and even in every way my duty to set forth even if only approximately the motives which compelled me to assume the whole burden of such an artificial life This protracted and for me absolutely unnatural life Absolutely irreconcilable too in every way with the traits that had entrenched themselves in my individuality by the time of my maturity was the direct consequence of my decision founded upon the results of my previous study of a whole series of historic precedents with a view first of all to preventing by to a certain degree unnatural outward manifestations of myself the formation in relation to me of that already noted from ancient times something termed by the great Solomon King of Juda Tzvarnoharno which as was set out by our ancestors forms itself by a natural process in the communal life of people as an outcome of a conjunction of the evil actions of so called common people and leads to the destruction of both him that tries to achieve something for general human welfare and of all that he has already accomplished to this end Secondly with a view to counteracting the manifestation in people with whom I came in contact of that inherent trait which embedded as it is in the psyche of people and acting as an impediment to the realization of my aims evokes from them when confronted with other more or less prominent people the functioning of the feeling of enslavement paralysing once and for all their capacity for displaying the personal initiative of which I then stood in particular need My aim at that time was concentrated upon the creation of conditions permitting the comprehensive elucidation of one complicated and with difficulty explicable aspect of the question which had already long before the beginning of this my artificial life inhered in my being and the necessity of whose final solution has whether by the will of fate or thanks to the inscrutable laws of heredity become and would at the moment appear

to be the fundamental aim of my whole life and of the force motivating my activity I find myself obliged in this so to say definitive statement as a writer which will also have to serve among other things as a sort of prospectus of the new phase of my unremitting activity for the welfare of my neighbours to give a brief outline of the history of the rise and development of those events and causes which were responsible for the formation in my individuality of the unquenchable striving to solve this question which had in the end become for me what modern psychologists might term an irresistible Mania This mania began to impose itself upon my being at the time of my youth when I was on the point of attaining responsible age and consisted in what I would now term an irrepressible striving to understand clearly the precise significance in general of the life process on earth of all the outward forms of breathing creatures and in particular of the aim of human life in the light of this interpretation Although a multitude of very specific factors conditioned by my upbringing and education had served as the primal cause for the formation in my being of the ground giving rise to such for contemporary man unusual striving yet as I understood later upon giving thought to the matter the principal cause must in the end be attributed to those entirely accidental circumstances of my life which coincided precisely with the aforesaid transition from preparatory age to responsible age and which may all be summed up in the fact that all my contacts at the time were almost exclusively with such persons of my age or my seniors who were either in the process of being formed themselves or who had already been formed into precisely that of late increased amongst us psychic typicality of people the formation of which as I myself have statistically established during the existence of my foundation The Institute For Man s Harmonious Development is due to the fact that the future representatives of this typicality have never either with a view to the real understanding of actuality or in the period of their preparatory age or again in the period of their responsible life absolutely never and in spite of the obvious necessity of such a step laid themselves open to experience but have contented themselves with other people s fantasies forming from them illusory conceptions and at the same time limiting themselves to intercourse with those like them and have automatised themselves to a point of engaging upon authoritative discussions of all kinds of seemingly scientific but for the most part abstract themes The Herald of Coming Good Georges Ivanovitch Gurdjieff,1933 **The Herald of**
