Ormiston, Alan D. Schrift, 1990-01-01 This book presents contemporary analyses of interpretation by some of the most prominent figures in contemporary philosophy and literary criticism These essays question and transform traditional statements on the aims methods and techniques of interpretation The essays demonstrate how contemporary discussions of interpretation are necessarily sent back to the hermeneutic tradition Emphasizing the importance of Friedrich Nietzsche's influence on the contemporary debates concerning current interpretive practices this volume traces the differences in interpretive perspectives generated in the writings of Michel Foucault Eric Blondel Julia Kristeva Jacques Derrida Manfred Frank Werner Hamacher and Jean-Luc Nancy The essays by Foucault Blondel Frank Hamacher and Nancy appear here for the first time in English

Hermeneutics and Hindu Thought: Toward a Fusion of Horizons Rita Sherma, Arvind Sharma, 2008-05-21 The advent of Hindu Studies coincides with the emergence of modern hermeneutics Despite this co-emergence and rich possibilities inherent in dialectical encounters between theories of modern and post-modern hermeneutics and those of Hindu hermeneutical traditions such an enterprise has not been widely endeavored The aim of this volume is to initiate such an interface Essays in this volume reflect one or more of the following categories 1 Examination of challenges and possibilities inherent in applying Western hermeneutics to Hindu traditions 2 Critiques of certain heuristics used historically to understand Hindu traditions 3 Elicitation of new hermeneutical paradigms from Hindu thought to develop cross-cultural or dialogical hermeneutics Applications of interpretive methodologies conditioned by Western culture to classify Indian thought have had important impacts Essays by Sharma Bilimoria Sugirtharajah and Tilak examine these impacts offering alternate interpretive models for understanding Hindu concepts in particular and the Indian religious context in general Several essays offer original insights regarding potential applications of traditional Hindu philosophical principles to cross-cultural hermeneutics Long Bilimoria Klostermaier Adarkar and Taneja Others engage Hindu texts philosophically to elicit deeper interpretations Phillips and Rukmani In presenting essays that are both critical and constructive we seek to uncover

intellectual space for creative dialectical engagement that we hope will catalyze a reciprocal hermeneutics

Understanding Hermeneutics Lawrence Kennedy Schmidt, 2016-04-15 This series provides short accessible and lively introduction to the major schools movements and traditions in philosophy and the history of ideas since the beginning of the Enlightenment All books in the series are written for undergraduates meeting the subject for the first time Hermeneutics concerns itself with the theory of understanding and the interpretation of language The question of how to correctly interpret and understand others remains one of the most contested branches of philosophy In *Understanding Hermeneutics* Lawrence Schmidt provides an introduction to modern hermeneutics through a systematic examination of the ideas of its key philosophical proponents Chapter 1 examines the ideas of the Protestant theologian Friedrich Schleiermacher who argues that misunderstanding is always possible so we must always employ interpretation if we are to understand correctly Chapter 2 discusses the ideas of Dilthey who maintains that understanding in the humanities is fundamentally different from explanation in the natural sciences and who presents a methodology to judge what another person means or feels by means of their language and also their gestures facial expressions and manners of acting Chapter 3 explores the ideas of Heidegger who radicalizes the concept by shifting its focus from interpreting texts to an existential interpretation of human being In Chapter 4 the recent ideas of Gadamer are examined which extend to examining the structures of hermeneutic experience and to question the supremacy of the natural sciences as models for truth The final chapters consider some of the criticisms and controversies surrounding hermeneutics including the work of Habermas Hirsch Ricoeur and Derrida and the prospects for the future of hermeneutics

Gadamer on Tradition - Historical Context and the Limits of Reflection Anders Odenstedt, 2017-07-07 This book discusses Gadamer's theory of context dependence Analytical and partly critical the book also shows exegetical accuracy in the rendering of Gadamer's position It explores the following questions that Gadamer's theory of context dependence tries to answer in what way is thought influenced by and thus dependent on its historical context To what extent and in what way is the individual able to become reflectively aware of and emancipate himself from this dependence The book takes Gadamer's wide interests into account e.g. issues relating to the history of historiography and the nature of art and aesthetic experience The problem of the context dependence of thought is prominent in contemporary philosophy including the fields of structuralism post structuralism deconstruction certain forms of feminist philosophy and the philosophy of science In this sense the book discusses an issue with wide repercussions

Eschatological Hermeneutics Daniel Minch, 2018-09-20 Eschatology is the foundation for exploring Edward Schillebeeckx's work Daniel Minch provides an in depth analysis of his hermeneutical theology informed by access to original texts previously unavailable in English He examines the historical and doctrinal origins of his methodology hermeneutics as human experience and the continuing relevance of the approach for today's socio economic context Today economics drives our predictions for the future But Minch shows that Schillebeeckx's work reminds us of a new image of humanity as well as a

new image of God part of the Catholic shift to a future oriented theology of hope that took place after the Second Vatican Council These resist both economic logic and fundamentalist views of God and history that have become pervasive in popular notions of Christianity

The Aesthetic Hermeneutics of Hans-Georg Gadamer and Hans Urs Von Balthasar Jason Paul Bourgeois, 2007 Through a comparison of their aesthetics and hermeneutics this book reveals that both Gadamer and Balthasar reject an autonomous neutral distanced starting point for interpretation Instead they advocate a dialogical model in which interpreters allow themselves to be engaged by the truth of the text or artwork at hand Both thinkers use aesthetic categories to describe this model of interpretation such as the neo Platonic category of radiance and both reflect a disclosure concealment theory of truth In recognizing that interpreters are part of an unfolding history and that the examination of historical texts cannot be done from a neutral standpoint they both acknowledge that textual interpretation must contain the dimension of dialogue with the past truths Significantly Balthasar incorporates these aesthetic and hermeneutical categories into an explicitly Trinitarian salvation history framework which is absent in Gadamer's thought This book concludes with the implications of an aesthetic hermeneutics for contemporary Roman Catholic theology and its dialogue with various schools of thought philosophical and religious arguing that the concrete particular forms of Christianity as expressed in Roman Catholicism cannot be bracketed or evacuated by Catholic theologians in the interest of achieving consensus in religious matters To the contrary it is precisely in these forms that we believe that God's revelation takes place

debates such as critical theory structuralism and phenomenology **Studying Christian Spirituality** David B. Perrin, 2007-08-07 This book provides a new introduction to the study of Christian spirituality exploring it through the human sciences and ranging from philosophy and hermeneutics to psychology history sociology and anthropology Systematic and progressive it introduces the key approaches and shows how they relate to the understanding study and practice of spirituality Covering a vast amount of ground from traditional themes such as images of God spiritual direction and pilgrimage to more contemporary issues such as place and space cyberspace and postcolonialism the author takes an ecumenical inclusive stance allowing the book to be used in a wide variety of courses and across denominations Being Played: Gadamer and Philosophy's Hidden Dynamic Jeremy Sampson, 2019-09-02 Are we being played Is our understanding of the traditionally fixed and static concepts of philosophy based on an oversimplification This book explores some of the theories of the self since Descartes together with the rationalism and the empiricism that sustain these ideas and draws some startling conclusions using Gadamer's philosophical study of play as its starting point Gadamer's ludic theory Sampson argues reveals a dynamic of play that exists at the deepest level of philosophy It is this dynamic that could provide a solution in relation to the Gadamer Habermas hermeneutics debate and the Gadamer Derrida relativism debate together with a theory of totality Sampson shows how ludic theory can be a game changer in understanding the relationship between philosophy and literature exploring the dynamic between the fictive and non fictive worlds These worlds are characterized simultaneously by sameness univocity of Being and difference equivocality of Being The book questions Heidegger's idea that the univocity of Being is universal instead maintaining that the relationship between the univocity of Being and equivocality of Being is real and that ontological mediation is required to present them as a unified whole Using the works of Shakespeare Beckett and Wilde Sampson contends that such a mediation termed the ludicity of Being takes place between literature and its audience This literary example has profound implications not only for literature and its attendant theories but also for philosophy in particular ontology and hermeneutics **Body, Text, and Science** M. Sawicki, 2013-12-01 What is scientific about the natural and human sciences Precisely this the legibility of our worlds and the distinctive reading strategies that they provoke That account of the essence of science comes from Edith Stein who as Husserl's assistant 1916 1918 labored in vain to bring his massive *Ideen* to publication and then went on to propose her own solution to the problem of finding a unified foundation for the social and physical sciences Stein argued that human bodily life itself affords direct access to the interplay of natural causality cultural motivation and personal initiative in history and technology She developed this line of approach to the sciences in her early scholarly publications which too soon were overshadowed by her religious lectures and writings and eventually were obscured by National Socialism's ideological attack on philosophies of empathy Today as her church prepares to declare Stein a saint her secular philosophical achievements deserve another look *Encyclopedia of Case Study Research* Albert J. Mills, Gabrielle Durepos, Elden Wiebe, 2010 This is the authoritative reference work in the field

An interdisciplinary set it investigates the extensive history design and methods of case study research Gadamer and Law
FrancisJ.Mootz Iii,2017-07-05 Hans Georg Gadamer s philosophical hermeneutics is especially relevant for law which is grounded in the interpretation of authoritative texts from the past to resolve present day disputes In this collection leading scholars consider the importance of Gadamer s philosophy for ongoing disputes in legal theory The work of prominent philosophers including Fred Dallmayr P Christopher Smith and David Hoy is joined with the work of leading legal theorists such as William Eskridge Lawrence Solum and Dennis Patterson to provide an overview of the connections between law and Gadamer s hermeneutical philosophy Part I considers the relevance of Gadamer s philosophy to longstanding disputes in legal theory such as the debate over originalism the rule of law and proper modes of statutory and constitutional exegesis Part II demonstrates Gadamer s significance for legal theory by comparing his approach to the work of Nietzsche Habermas and Dworkin The Power of Language in the Making of International Law Stephane Beaulac,2004-04-01 The purpose of this book is to enter into the history of the mental social phenomena that are the word sovereignty and the myth of Westphalia Given the circularity of language the project proposes to examine the reality creating role of language as an organic instrument of social power within humanity In semiotic terms the complex structures of words and also myths form part of sign systems in which they can both represent and create reality These are the passive and active functions of language which explain that words and myths not only represent and describe reality but may also play a leading part in creating and transforming reality thus demonstrating and being used to carry fabulous power within humanity The Peace of Westphalia is analysed to show that in spite of what actually took place in 1648 Westphalia has had an incredible social effect in international law standing for the proposition that it signalled the beginning of a new era based on state sovereignty However it is argued that Westphalia constitutes a myth an aetiological myth which has provided a way for society to explain itself to itself that is a way for international society to explain its genesis to itself As regards sovereignty it is shown that Jean Bodin introduced the word in Six Livres for the purpose of having the French ruler enjoy supreme power in the hierarchical organisation structure of society This is the original creative and transforming social effect on the shared consciousness of humanity for which the linguistic sign must be credited which has continued unaltered to this day With respect to Droit des Gens it is demonstrated that Emer de Vattel utilised and actually changed the reality associated with sovereignty also for a specific reason namely to carry out its externalisation the ruling entity was now to enjoy exclusive power to govern which entailed being the sole representative of the people both internally and externally and also meant that it could not be submitted to any foreign state or to any higher law externally Vattel s use of the word has had an extraordinary effect on the shared consciousness of society including that of the emerging international society which is still very much present today These two archetype cases in which sovereignty developed show how this word has really had two paradigms over the years that is it has represented and created the two distinct realities of the internal and the international International

"The Bold Arcs of Salvation History"

Maureen Junker-Kenny,2022-01-19 This book offers the first in depth treatment in English language of Habermas s long awaited work on religion Auch eine Geschichte der Philosophie published in 2019 Charting the contingent origins and turning points of occidental thinking through to the current postmetaphysical stage the two volumes provide striking insights into the intellectual streams and conflicts in which core components of modern self understanding have been forged The encounter of Greek metaphysics with biblical monotheism has led to a theology of history as salvation expanding in bold arcs from Adam s Fall to Christ and the Last Judgement The reconstruction of key turns in the relationship between faith and knowledge ends however with locating the uniqueness of religion in ritual and defining reason as inherently secular The book exposes the sources and trajectories analysed by Habermas with great erudition to different assessments in biblical studies theology and philosophy of subjectivity Apart from Paul and Augustine key lines of continuity are identified in the Gospels early patristic theology Duns Scotus and Schleiermacher that retain the internal connection of faith to autonomous freedom

A Hermeneutics of Religious Education David Aldridge,2015-10-22 What does it mean to understand a religion How should the concept of truth be addressed in the contemporary classroom What is the proper subject matter of religious education and how does it relate to other subjects and the school curriculum as a whole Despite the prevalence of literature on these subjects these issues are far from resolved and consequently the place and nature of religious education in our

schools is precarious and confused A Hermeneutics of Religious Education argues that although the tradition of philosophical hermeneutics has transformed both educational thought and the academic discipline of religious studies the literature of religious education pedagogy has paid only limited attention to these developments To engage with them fully entails a transformation of our understanding of religious education and its importance in a curriculum of the twenty first century

Jurgen Habermas Robert C. Holub, 2013-01-11 The most important intellectual in the Federal Republic of Germany for the past three decades Habermas has been a seminal contributor to fields ranging from sociology and political science to philosophy and cultural studies Although he has stood at the centre of concern in his native land he has been less readily accepted outside Germany particularly in the humanities His theoretical work postulates the centrality of communication and understanding and as such his strategy of debate is marked by a politically informed unity of theory and practice Holub s book is the first detailed account of the major debates in which Habermas has engaged since the early sixties It stems from the conviction that his critics have not understood the political strategy behind his various interventions or the consistency that informs his intellectual activities Habermas is viewed in dialogue with important philosophical sociological and political currents in West Germany Holub demonstrates how Habermas pursues a course that incorporates various aspects of his opponents positions while simultaneously defending perceived threats to democracy and open discussion
