Textiles and Costume Design (Classic Reprint) Evelyn Peters Ellsworth, 2017-11-06 Excerpt from d104iles and Costume Design Indeed ermine is a striking example of a misused accessory in a costume It is fascinating because it conjures up visions of royal personages knights and ladies The laws of the Middle Ages edward III required that it be worn only by nobles and to day in Europe ermine is worn on state robes the rank and position of the wearer is in many cases indicated by its presence or absence and the disposition of the black spots and when worn in crowns or coronets it is a recognition of heraldry Therefore at all times it should be reserved for state occasions or worn for mally with certain royally textured and dignified clothes and fabrics just as velvets and satins are reserved for formal gowns and not for kitchen or garden work just as large velvet hats are not worn in the morning with workaday clothes or short skirts and just as royally plumed large velvet hats are suited only to formal afternoon or evening gowns of velvet or satin Much might be written upon this subject of good taste and imagination in the wearing of clothes About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Textiles and Clothing (Classic Reprint)** Ellen Beers McGowan, 2017-11-29 Excerpt from Textiles and Clothing This book has been written primarily to meet a need arising from the introduction of the study of textiles into the curriculum of the high school The aim has been there fore to present the subject matter in a form sufficiently simple and interesting to be grasped readily by the high school student without sacrificing essential facts It has not seemed desirable to explain in detail the mechanism of the various machines used in modern textile industries but rather to show the student that the fundamental principles of textile manufacture found in the simple machines of primitive times are unchanged in the highly developed and complicated machinery of to day Minor emphasis has been given to certain necessarily technical paragraphs by printing these in type of a smaller size than that used for the body of the text The authors emphasize the finished products and their relation to the household Chapters have been introduced on the purchase testing and economical use of textile material with the hope of pointing the way to a concrete and practical application of the study of textiles The woman of to day can no longer afford to be untrained in this respect and because of present economic conditions a definite obligation is laid upon her to understand the nature and real worth of clothing material and house furnishings in order to buy with judgment and economy The girl in high school has the

opportunity to acquire this knowledge which will function in her later life We are gradually breaking away from the formal teaching of sewing as an isolated subject About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
