witnesses to earlier forms of its Hebrew text By focusing the analysis on variant readings and textual difficulties the study arrives at a better understanding of these manuscripts as representatives of both the text and the content of Lamentations

Dictionary of the Old Testament: Historical books BILL T ARNOLD, HUGH G M

WILLIAMSON, 2020-05-21 The Dictionary of the Old Testament Historical Books is the second volume in IVP's Old Testament dictionary series. This volume picks up where the Dictionary of the Old Testament Pentateuch left off with Joshua and Israel poised to enter the land and carries us through the postexilic period. Following in the tradition of the four award-winning IVP dictionaries focused on the New Testament, this encyclopedic work is characterized by in-depth articles focused on key topics, many of them written by noted experts. The history of Israel forms the skeletal structure of the Old Testament. Understanding this history and the biblical books that trace it is essential to comprehending the Bible. The Dictionary of the Old Testament Historical Books is the only reference book focused exclusively on these biblical books and the history of Israel.
