Thai House History And Evolution:

The Thai House Ruethai Chaichongrak,2002 The construction of wooden houses raised on stilts which help to escape floods and pests is a phenomenon found across Southeast Asia Over many centuries each country has developed its own unique tradition Thailand is no exception and indeed each of the country s four main regions has developed its own distinctive style making the wooden houses of Thailand among the most widely diverse and beautiful examples of Southeast Asian architecture The Thai House not only traces the history of these versatile buildings but also explains the stages in their construction the beliefs that underlie the positioning of every architectural element and the complex ceremonies celebrating their construction Beautiful photographs and authoritative texts celebrate a wide variety of Thai houses *The Thai House* Ruthai Čaičhongrak,2002 The construction of wooden houses raised on stilts which help to escape floods and pests is a phenomenon found across Southeast Asia Over many centuries each country has developed its own unique tradition Thailand is no exception and indeed each of the country s four main regions has developed its own distinctive style making the wooden houses of Thailand among the most widely diverse and beautiful examples of Southeast Asian architecture The Thai House not only traces the history of these versatile buildings but also explains the stages in their construction the beliefs that underlie the positioning of every architectural element and the complex ceremonies celebrating their construction Beautiful photographs and authoritative texts celebrate a wide variety of Thai houses *The Thai House* ,2002 The Thai House Ruethai Chaichongrak,2002 The traditional houses of Thailand in wood or bamboo are among the most beautiful examples of Southeast Asian vernacular architecture Using a prefabricated modular system such houses could be taken down and rebuilt in new locations in an era when land was still abundant The book not only traces the history of the Thai house but also explains the building process and the beliefs and complex ceremonies with accompany their construction Beautiful photographs and authoritative texts make this book an invaluable treatise on the Thai House 395 colour 55 b w illustrations

Southeast Asian Houses Seo Ryeung Ju et al.,2017-08-04 Southeast Asian architecture tends to be generalized under one umbrella due to the countries common geographical climatic and historical context However Southeast Asian countries are dissimilar due to their ethnic and religious differences which led to each country s own subtle characteristics in housing In order to identify the commonality and diversity among Southeast Asian architecture details of the architectural forms have to be carefully analyzed This book begins with an introductory section about housing culture in Southeast Asia as a whole and then examines the traditional houses of five countries in more detail Each chapter contains a brief summary of a Southeast Asian country s history and culture and an introduction to the general characteristics and major types of traditional houses of the country This is followed by a detailed explanation on the form and significance of one of the country s major types of housing The authors also explain how traditional houses are being modernized offering a glimpse at the future of traditional housing in each country Metro Manila Street Map Asiatype, Incorporated,2003 **Asian**

Borderlands Charles Patterson Giersch, 2006 With comparative frontier history and pioneering use of indigenous sources Giersch provides a groundbreaking challenge to the China centered narrative of the Qing conquest He focuses on the Tai domains of the Yunnan frontier on the politically fluid borderlands where local indigenous leaders were crucial actors in an arena of imperial rivalry
