That Wilder Image The Painting Of Americ:

That Wilder Image James Thomas Flexner,1970 **The Invention of Painting in America** David Rosand,2004 David Rosand recounts the transformation of early American painters from provincial followers of the established traditions of Europe into some of the most innovative and influential artists in the world Moving beyond simple descriptions of what distinguishes American art from other movements and forms Rosand explores not only the status of artists and their relationship to their work but also the larger dialogue between the artist and society He looks to the intensely studied portraits of America s early painters especially Copley and Eakins and the landscapes of Homer and Inness among others Each of these artists grappled with conflicting cultural attitudes and different expressive styles He discusses the work of Davis Gorky de Kooning Pollock Rothko and Motherwell and the subjects and themes that engaged them Despite the indifference with which it was first met American art flourished against the odds and founded the aesthetic consciousness that we equate with American art today In this exhilarating study Rosand unearths the historical and artistic conditions that gave rise to the phenomenon of Abstract Expressionism *The Poetry of American Women from 1632 to 1945* Emily Stipes Watts,2014-09-10 American women have created an especially vigorous and innovative poetry beginning in 1632 when Anne Bradstreet set aside her needle and picked up her poet s pen The topics of American women poets have been various their images their own and their modes of expression original Emily Stipes Watts does not imply that the work of American men and that of American women are two different kinds of poetry although they have been treated as such in the past It is her aim rather to delineate and define the poetic tradition of women as crucial to the understanding of American poetry as a whole By 1850 American women of all colors religions and social classes were writing and publishing poetry Within the critical category of female poetry developed from 1800 to 1850 these women experimented boldly and prepared the way for the achievement of such women as Emily Dickinson in the second half of the nineteenth century Indeed at times for example from 1860 through 1910 it was women who were at the outer edge of prosodic experimentation and innovation in American poetry Moving chronologically Professor Watts broadly characterizes the state of American poetry for each period citing the dominant male poets she then focuses on women contemporaries singling out and analyzing their best work This volume not only brings to light several important women poets but also represents the discovery of a tradition of women writers This is a unique and invaluable contribution to the history of American literature **A Seamless Web** Cheryll May,2014-03-17 In recent years American art scholars have increasingly focused on the importance of cross cultural exchanges during the nineteenth century As essayist Fran ois Brunet puts it mid nineteenth century landscapes were transnational permeated by complex transactions where American originality produced itself not only in imitation of or reaction against European influences but as critical mirroring and incorporating of European images Articles in this collection make clear that the conversation of cultures went both ways with American artworks and culture also affecting European artistic and literary

practice Essays explore the transnational origin of many types of American artworks from stained glass windows which usually copied their European originals with great exactitude to paintings and sculptures using distinctly American motifs such as the Puritan and the cowboy to distinguish American art students from their Parisian masters It also examines American cultural icons particularly the American Indian appropriated by European writers artists and philosophers to embody primeval wisdom A distinguished international group of scholars including Brunet Robert Rydell and Peter Gibian offer valuable perspectives on the ever broadening field of transnational cultural studies American Painting of the Nineteenth Century Barbara Novak,2007-01-12 In this distinguished work which Hilton Kramer in The New York Times Book Review called surely the best book ever written on the subject Barbara Novak illuminates what is essentially American about American art She highlights not only those aspects that appear indigenously in our art works but also those features that consistently reappear over time Novak examines the paintings of Washington Allston Thomas Cole Asher B Durand Fitz H Lane William Sidney Mount Winslow Homer Thomas Eakins and Albert Pinkham Ryder She draws provocative and original conclusions about the role in American art of spiritualism and mathematics conceptualism and the object and Transcendentalism and the fact She analyzes not only the paintings but nineteenth century aesthetics as well achieving a unique synthesis of art and literature Now available with a new preface and an updated bibliography this lavishly illustrated volume featuring more than one hundred black and white illustrations and sixteen full color plates remains one of the seminal works in American art history **American Paintings** Metropolitan Museum of Art (New York, N.Y.),1965

Failure and Success in America Martha Banta,2015-03-08 Ranging widely over a span of three hundred and fifty years of discussion and controversy Martha Banta s book makes a fundamental contribution to the continuing debate on the nature of success and failure in a specifically American context Her Whitmanesque view of the debate takes in the work of innumerable writers particularly Emerson Thoreau Twain Melville Henry Adams William and Henry James Faulkner Gertrude Stein and Norman Mailer She draws on the work of philosophers psychologists and historians as well Rather than discussing failure and success as merely economic or political statistics Professor Banta explores them in terms of attitudes and concepts She asks what it feels like for an American to succeed or fail in a country that is often defined in relation to its own success or failure as an idea and as an experience While examining the thoughts feelings and language of Americans caught in the dialectic between winning and losing the author reveals the strain Americans feel in fulfilling the overall scheme of their own lives as well as the life or destiny of their country Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
