Thatcher Reagan And Mulroney:

Thatcher, Reagan, and Mulroney Donald J. Savoie, 2010-11-23 Savoie considers the war of reform waged by the leaders of these major industrial countries Reagan declared that he had come to Washington to drain the swamp of bureaucracy and set up the Grace Commission to investigate the operation of the U S government Thatcher and Mulroney were equally committed to reform and initiated wide ranging changes By the end of the 1990s the changes were dramatic Many governments operations had been privatized in all three countries and new management techniques had been introduced In Great Britain one observer judged that the changes were historically as important as the collapse of Keynesian economics Is government now better in these countries and was political leadership right in focusing on management of the bureaucracy as the villain Savoie suggests that the reforms overlooked problems now urgently requiring attention and at the same time attempted to address non existent problems He combines theory and research based on sixty two interviews nearly all with members of the executive branch of the governments of Britain Canada and the United States *Thatcher, Reagan, Mulroney* Donald J. Savoie, 1994 **Women on the Defensive** Sylvia B. Bashevkin, 1998-06-08 Bashevkin combines individual voices with policy initiatives to provide the first complete picture of the recent past and uncertain future of contemporary feminism BOOK JACKET *The Politics of Abortion in the United States and Canada: A Comparative Study* Raymond Tatalovich, 2015-05-20 A cross cultural analysis of the abortion issue in the United States and Canada The book focuses on the judicial legislative and executive branches public opinion and interest groups federal agencies and the roles of subnational authorities and the health care sectors **Public Budgeting in Canada** G. Bruce Doern, 1988-06-15

Whatever Happened to the Music Teacher? Donald J. Savoie, 2013 An insightful account of the forces that shape Ottawa s expenditure budget and the relations between politicians and public servants *Breaking the Bargain* Donald J. Savoie, 2003-01-01 In *Breaking the Bargain* Donald J Savoie reveals how the traditional deal struck between politicians and career officials that underpins the workings of our national political and administrative process is today being challenged

Government Donald J. Savoie, 2022-05-22 Citizens have lost trust in their institutions of public governance In trying to fix the problem presidents and prime ministers have misdiagnosed the patient failing to recognize that government bureaucracies are inseparable from political institutions As a result career officials have become adroit at managing the blame game but much less so at embracing change Donald Savoie looks to the United States Great Britain France and Canada to assess two of the most important challenges confronting governments throughout the Western world the concentration of political power and the changing role of government bureaucracy The four countries have distinct institutions shaped by distinct histories but what they have in common is a professional non partisan civil service When presidents and prime ministers decide to expand their personal authority national institutions must adjust while bureaucracies grow to fill the gap paradoxically further constricting government efficacy The side effects are universal

political power is increasingly centralized Parliament Congress and the National Assembly have been weakened Cabinet has lost standing political parties have been debased and civil services have been knocked off their moorings Reduced responsibility and increased transparency make civil servants slow to take risks and politicians quick to point fingers Government astutely diagnoses the problem of declining trust in government presidents and prime ministers have failed to see that efficacy in government is tied to well performing institutions *Court Government and the Collapse of Accountability in Canada and the United Kingdom* Donald Savoie, 2008-05-10 There is a consensus throughout much of the western world that the public sector is in urgent need of repair This study seeks to understand why this is so by comparing developments in Canada and the United Kingdom It looks to changes in values both in society and inside government and to the relationships between politicians and civil servants at the top and between civil servants and citizens at the bottom Donald J Savoie argues that both Canada and the UK now operate under court government rather than cabinet government By court government he means that effective power now rests with their respective prime ministers and a small group of carefully selected courtiers For things that matter to prime ministers and their courts the decision making process shifts from formal to informal involving only a handful of actors For things that matter less to them the decision making process is horizontal cumbersome and consultative and involves a multitude of actors from different government departments and agencies as well as a variety of individuals operating outside government Court governments undermine both the traditionally bureaucratic model and basic principles that have guided the development of our Westminster Whitehall parliamentary system Nonetheless Canada and the United Kingdom still cling to accountability requirements better suited to the past and the traditional bureaucratic model Savoie concludes with a call for new accountability requirements that correspond with court government as well as the new relationships between politicians and civil servants and civil servants and citizens *Partisan Odysseys* Nelson Wiseman, 2020-04-23 Motifs or recurring elements in Canadian party politics speak to dominant ideas of the era Partisan Odysseys looks at how political parties have adjusted adapted and sometimes reinvented themselves in response to these cultural cues
