Ralph Lee,2010-03 If you are tired of pretending that you are something that you are not living up to someone elses expectation and always preparing for something great that never seems to happen then this book is for you Each word s intent is to help filter the impurities of outside influences Within these pages you are given the gift of you without prejudice or guilt You will have a free pass to explore what you think what you have experienced and what you want You will learn that the only acceptable timetable for greatness is now The author Ralph B Lee Jr went through a series of questions that helped him clarify who he was and what was important to him With his particular personality ever present in the writing as well as his tactical analytical style of addressing issues of living you will enjoy an exhaustive exploration of you Our market society has convinced most that greatness can be purchased or that greatness is outside each of us Ralph will show you that you don t need to have anything more than what you have to be great You are great because you are great

The Epistemology of Desire and the Problem of Nihilism Allan Hazlett,2024-07-12 Most people have wondered whether anything really matters some have temporarily thought that nothing really matters and some philosophers have defended the view that nothing really matters However if someone thinks that nothing matters if they are a nihilist about value then it seems that it is irrational for them to care about anything It seems that nihilism about value mandates total indifference This is the problem of nihilism Allan Hazlett addresses in *The Epistemology of Desire and the Problem of Nihilism* Hazlett argues that the problem of nihilism arises because desire and thus caring is a species of evaluation that admits of irrationality This contradicts the influential Humean view that desire does not admit of irrationality which has a ready solution to the problem of nihilism since desire does not admit of irrationality it cannot be irrational to care about something that you believe does not matter However following G E Anscombe Hazlett argues that desire has the same relationship to goodness as belief has to truth just as truth is the accuracy condition for belief goodness is the accuracy

condition for desire This reveals desire as an appropriate target of epistemological inquiry in the same way that belief is an appropriate target of epistemological inquiry Desires can amount to knowledge in the same way that beliefs can amount to knowledge and crucially for the problem of nihilism desire admits of irrationality in the same way that belief admits of irrationality Nevertheless although it is obviously irrational to believe something that you believe is not true Hazlett argues that it is not irrational to desire something you believe is not good despite the fact that goodness is the accuracy condition for desire This provides a solution to the problem of nihilism and shows that nihilism about value can coherently be combined with the anti Humean view that desire is a species of evaluation
