Engineers at War (United States Army in Vietnam Series) Adrian G. Traas, Center of Military History United States Department of the Army,2018-10 Engineers at War describes the role of military engineers especially the U S Army Corps of Engineers in the Vietnam War It is a story of the engineers battle against an elusive and determined enemy in one of the harshest underdeveloped regions of the world Despite these challenges engineer soldiers successfully carried out their combat and construction missions The building effort in South Vietnam allowed the United States to deploy and operate a modern 500 000 man force in a far off region Although the engineers faced huge construction tasks they were always ready to support the combat troops They built ports and depots carved airfields and airstrips out of jungle and mountain plateaus repaired roads and bridges and constructed bases Because of these efforts ground combat troops with their supporting engineers were able to fight the enemy from well established bases Although most of the construction was temporary more durable facilities such as airfields port and depot complexes *Vietnam Airmobile Warfare Tactics* Gordon L. Rottman,2012-10-20 A Vietnam veteran explains the composition capabilities equipment and missions of the US Army and Marine Corps helicopter and airmobile units in the Vietnam war and exactly how they carried out their missions This compact yet detailed volume centers on the classic airmobile assault mission how it was planned and prepared how the troop carrying slicks and their gunship escorts and support teams actually operated and the opposition and hazards that they faced on the LZ The text is illustrated with wartime photos organization charts and color plates showing both the machines and the tactics that where employed Vietnam's High Ground J. P. Harris,2016-09-12 During its struggle for survival from 1954 to 1975 the region known as the Central Highlands was the strategically vital high ground for the South Vietnamese state Successive South Vietnamese governments their American allies and their Communist enemies all realized early on the fundamental importance of this region Paul Harris s new book based on research in American archives and the use of Vietnamese Communist literature on a very large scale examines the struggle for this region from the mid 1950s tracing its evolution from subversion through insurgency and counterinsurgency to the bigger battles of 1965 The rugged mountains high plateaus and dense jungles of the Central Highlands seemed as forbidding to most Vietnamese as it did to most Americans During 1954 to 1965 the great majority of its inhabitants were not ethnic Vietnamese Ngo Dinh Diem s regime initially supported an American counterinsurgency alliance with the Highlanders only to turn dramatically against it As the war progressed however the Central Highlands became increasingly important It was the area through which most branches of the Ho Chi Minh Trail passed With its rugged jungle clad terrain it also seemed to the North Vietnamese the best place to destroy the elite of South Vietnam s armed forces and to fight initial battles with the Americans For many North Vietnamese however the Central Highlands became a living hell of starvation and disease Even before the arrival of the American 1st

Cavalry Division the Communists were generally unable to win the decisive victories they sought in this region Harris's study culminates with an account of the campaign in Pleiku province in October to November a campaign that led to dramatic clashes between the Americans and the North Vietnamese in the Ia Drang valley Harris's analysis overturns many of the accepted accounts about NVA US and ARVN performances [The RTO](#) James M. Hiltz, 2025-05-08 The book follows four tracks The first and most obvious is my military career both Active and Reserve The first half of my book covers my life leading up to Vietnam and through the year in Vietnam The second track of the book covers my education in becoming an engineer and my career as an engineer The third track highlights my family life and the love of my life my wife Chris Finally the fourth track weaving its way through the others is the work of God in my life For without Him I would have come to nothing

Westmoreland Lewis Sorley, 2017-11-01 A terrific book lively and brisk a must read for anyone who tries to understand the Vietnam War Thomas E Ricks Is it possible that the riddle of America's military failure in Vietnam has a one word one man answer Until we understand Gen William Westmoreland we will never know what went wrong in the Vietnam War An Eagle Scout at fifteen First Captain of his West Point class Westmoreland fought in two wars and became Superintendent at West Point Then he was chosen to lead the war effort in Vietnam for four crucial years He proved a disaster Unable to think creatively about unconventional warfare Westmoreland chose an unavailing strategy stuck to it in the face of all opposition and stood accused of fudging the results when it mattered most In this definitive portrait prize winning military historian Lewis Sorley makes a plausible case that the war could have been won were it not for General Westmoreland An authoritative study offering tragic lessons crucial for the future of American leadership Westmoreland is essential reading Eye opening and sometimes maddening Sorley's Westmoreland is not to be missed John Prados author of Vietnam The History of an Unwinnable War 1945 1975

Combat Operations: Stemming the Tide, May 1965 to October 1966 (Paperback) John M. Carland, 2000 This book describes a critical chapter in the Vietnam conflict the first eighteen months of combat by the U S Army's ground forces The author focuses on initial deployments and early combat but attempts to presents the war in all of its detail the enemy's strategy and tactics General William C Westmoreland's search and destroy operations the helicopters and airmobile warfare the immense firepower American forces could call upon to counter Communist control of the battlefield the out of country enemy sanctuaries and the allied efforts to win the allegiance of the South Vietnamese people to the nation's anti Communist government [Combat Operations: Stemming the Tide, May 1965 to October 1966 \(Paperback\)](#) John M. Carland, 2000-06-06 Center of Military History Publication 91 5 1 United States Army in Vietnam Focuses on the first 18 months of combat in Vietnam Describes how the United States Army entered the war and fought its first battles north of Saigon and in the Central Highlands

[Pacification](#) Richard A Hunt, 2018-02-05 During the Vietnam War the United States embarked on an unusual crusade on behalf of the government of South Vietnam Known as the pacification program it sought to help South Vietnam's government take root and survive as an independent

legitimate entity by defeating communist insurgents and promoting economic development and political reforms In this book Richard Hunt provides the first comprehensive history of America s battle for hearts and minds the distinctive blending of military and political approaches that took aim at the essence of the struggle between North and South Vietnam Hunt concentrates on the American role setting pacification in the larger political context of nation building He describes the search for the best combination of military and political action incorporating analysis of the controversial Phoenix program and illuminates the difficulties the Americans encountered with their sometimes reluctant ally The author explains how hard it was to get the U S Army involved in pacification and shows the struggle to yoke divergent organizations military civilian and intelligence agencies to serve one common goal The greatest challenge of all was to persuade a surrogate the Saigon government to carry out programs and to make reforms conceived of by American officials The book concludes with a careful assessment of pacification s successes and failures Would the Saigon government have flourished if there had been more time to consolidate the gains of pacification Or was the regime so fundamentally flawed that its demise was preordained by its internal contradictions This pathbreaking book offers startling and provocative answers to these and other important questions about our Vietnam experience **Joint Force Quarterly** ,1999 Losing Binh Dinh Kevin M. Boylan,2016-12-12

Americans have fought two prolonged battles over Vietnam one in southeast Asia and one ongoing even now at home over whether the war was unnecessary unjust and unwinnable Revisionist historians who reject this view have formulated many contra factual scenarios for how the war might have been won but also put forward one historically testable hypothesis namely that the war actually was won after the 1968 Tet Offensive only to be thrown away later through a failure of political will It is this Lost Victory hypothesis that Kevin M Boylan takes up in *Losing Binh Dinh* aiming to determine once and for all whether the historical record supports such a claim Proponents of the Lost Victory thesis contend that by 1972 President Richard Nixon s policy of Vietnamization had effectively eliminated South Vietnamese insurgents pacified the countryside and prepared the South Vietnamese to defend their own territory with only logistical and financial support from Americans Rejecting the top down approach favored by Revisionists Boylan examines the facts on the ground in Binh Dinh a strategically vital province that was the second most populous in South Vietnam controlled key transportation routes and contained one of the nation s few major seaports as well as the huge US Air Force base at Phu Cat Taking an in depth look at operations that were conducted in the province Boylan is able to uncover the fundamental flaw in the dual objectives of Vietnamization and Pacification namely that they were mutually exclusive The inefficiency and corruption of the South Vietnamese government and armed forces was so crippling that progress in pacification occurred only when Americans took the lead which in turn left the South Vietnamese even more dependent on US support
