The 40 Minute War:

Air Power in Three Wars [WWII, Korea, Vietnam] William W. Momyer, 1978 **Air power in three wars**, *The 40-minute War* Janet Morris, Chris Morris, 1984 **Air Power in Three Wars: World War II, Korea, Vietnam [Illustrated Edition]** General William W. Momyer USAF, 2015-11-06 Includes over 130 illustrations and maps This insightful work documents the thoughts and perspectives of a general with 35 years of history with the U S Air Force General William W Momyer The manuscript discusses his years as a senior commander of the Air Force strategy command and control counter air operations interdiction and close air support His perspectives cover World War II the Korean War and the Vietnam War **De Gaulle and Churchill** Evan McGilvray, 2025-11-04 De Gaulle and Churchill examines the tense and complicated relationship between General de Gaulle as leader of the Free French on the one hand and Winston Churchill and the British Government on the other Evan McGilvray shows that De Gaulle was a career soldier not a politician by any means prior to 1940 but stepped into the leadership vacuum after the fall of France to provide a vital figurehead and rallying point for the Free French movement His experiences in WW1 where he had served with distinction and was decorated but then was captured and so missed the nadir of despair expressed in the mutiny of 1917 meant he did not share the general defeatism of his peers in 1940 De Gaulle had demonstrated between the wars that he understood modern warfare and the need for modernization and reform of the French forces Churchill valued the Free French contribution particularly the French colonies as bulwarks to the British Middle East and jumping off points for a Mediterranean counteroffensive but demonstrated his ruthless willingness to ride roughshod over French sensibilities This was most famously demonstrated by the sinking of the French fleet to prevent it falling into German hands The author traces their difficult relationship from the dark days of the Fall of France to the final victory with de Gaulle by then installed as head of the provisional government of the French Republic This fascinating study concludes with the immediate post war period by which time Churchill and de Gaulle had developed a warmer more mutually respectful relationship **Supervision Across the Content Areas** Sally J. Zepeda, R. Stewart Mayers, 2014-05-22 You became a school leader after succeeding in your particular content area and or grade level Now you re responsible for the entire school You are accountable for everything that goes on including results from those who teach outside your areas of original expertise Supervision Across the Content Areas provides tools and strategies to help you effectively supervise all of your teachers including those in contents areas or grade levels in which you may not have had personal classroom experience While focusing on four key content areas Mathematics Science English Language Arts and Social Studies this book also provides supervision tools for other content areas foreign languages fine arts physical education etc Also included are tools and strategies to help you supervise teachers who use instructional strategies such as differentiated instruction Socratic Seminars cooperative learning and inquiry apply local and national standards to frame your instructional program ensure accountability of teachers who use multiple intelligences brain based learning and

David Seed, 2011-06-23 Science Fiction has proved notoriously difficult to define It has been explained as a combination of romance science and prophecy as a genre based on an imagined alternative to the reader's environment and as a form of fantastic fiction and historical literature It has also been argued that science fiction narratives are the most engaged socially relevant and responsive to the modern technological environment This Very Short Introduction doesn't offer a history of science fiction but instead ties examples of science fiction to different historical moments in order to demonstrate how science fiction has evolved over time David Seed looks not only at literature but also at drama and poetry as well as film Examining recurrent themes in science fiction he looks at voyages into space the concept of the alien and alternative social identities the role of technology in science fiction and its relation to time in the past present and future ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Military**

Naval Policy Between the Wars, Volume II Stephen Roskill, 2016-07-30 First published in 1968 and 1976 the two volumes of this work still constitute the only authoritative study of the broad geo political economic and strategic factors behind the inter war development of the Royal Navy and to a great extent that of its principal rival the United States Navy Roskill conceived the work as a peacetime equivalent of the official naval histories filling the gap between the First World War volumes and his own study of the Navy in the Second As such it is marked by the extensive use of British and American sources from which Roskill extracted shrewd and balanced conclusions that have stood the test of time Picking up the story in 1930 this volume covers the rise of the European dictatorships on the one hand alongside continuing attempts at controlling arms expenditure through diplomacy and treaties Eventually Italian German and indeed Japanese aggression diminished the prospects for peace to the point where Britain felt forced to rearm How the Navy used the precious few years leading up to the outbreak of war is a crucial section of the book and forms a fitting conclusion to this important study of the

inter war years
