The Hand Of The Master Craftmanship Ivory And Society In Byzantium 9th 11th Centuries:

The Hand of the Master Anthony Cutler, 1994 This book is the first detailed study in fifty years of Byzantine ivory carving in the tenth and eleventh centuries the era when work in that medium reached its highest level of attainment Unique in its aim and range The Hand of the Master considers how when and why the Byzantines used ivory for icons and other luxurious items Based on direct study of the objects the book discusses more than 150 pieces and is illustrated with new photographs that are indispensable to an understanding of carving techniques and styles Cutler analyzes the normal working methods of Byzantine carvers as well as aspects of craftsmanship that enable us to identify distinct hands These observations are then made the basis of both a revised chronology and a more rigorous system of classification than has existed heretofore But the recognition of particular sculptors is a means rather than an end in this book Similarities and differences within this huge body of production allow answers to such broader questions as the functions of craftsmen in this society their relations with clients and designers and ultimately the significance of ivory in the visual culture of Byzantium *Anthony Cutler, The Hand of the Master : Craftsmanship, Ivory, and Society in Byzantium (9th-11th Centuries). Princeton, N.J.: Princeton University Press, 1994* Archer St. Clair, 1997 The Oxford Handbook of Byzantine Art and Architecture Ellen C. Schwartz, 2021 A comprehensive overview of Byzantine art history Examines the development of religious architecture cultural dissemination adornment survival of historical subjects and styles in succeeding centuries Features more than 150 illustrations Book jacket Urban and Religious Spaces in Late Antiquity and Early Byzantium Jean-Michel Spieser, 2024-12-11 Professor Spieser deals here with a number of the transformations that took place in the world of Late Antiquity and early Christianity focusing upon notions of space The first set of articles opening with a newly written introductory essay addresses the development of urban landscapes from the Roman period up to the iconoclast era in Byzantium In particular he looks at the consequences of christianisation and argues that the changing fortunes of the town cannot be attributed to a few causes such as war or natural disaster but resulted from a complex interplay between the economy and ideology religion and politics A second group concerned with the relationship of late antique man with his surroundings and therefore his perception of space sets out to explain how the decoration of churches on apses for example or on doors reflects new senses of how religious spaces should be organised Six of these studies have been translated into English for this volume and it ends with an important section of additional notes and comment The Legacy of Antiquity Lenia Kouneni, 2014-09-26 Recent years have seen an increase of interest in classicism and the reception and survival of antiquity Classical Reception Studies is a rapidly developing field of research and teaching and a growing number of new scholars are investigating issues of reception of classical texts ideas performance and material culture across different cultural contexts and in different media This volume adds new perspectives in this growing field of scholarship This collection of essays explores the uses of the past from a wide range of perspectives The papers are drawn from a spectrum of cultures

and chronological periods from medieval to modern times from Italian to Byzantine from French to British The characters involved in each case study accessed the past through different means employing varying combinations of texts oral traditions iconographic representations and visible remains of the landscape It is a snapshot of a field in movement illustrative of current directions and hopeful of producing new ones The legacy of antiquity is omnipresent and is as multifaceted as suggested by the wide range of the papers This volume presents new perspectives dealing with ever elusive enigmas and opening the way for future research and investigation to all those who seek to explore the constant fascination with the antique

Touching Parchment: How Medieval Users Rubbed, Handled, and Kissed Their Manuscripts Kathryn M. Rudy, 2023-04-18 The Medieval book both religious and secular was regarded as a most precious item The traces of its use through touching and handling during different rituals such as oath taking is the subject of Kathryn Rudy s research in *Touching Parchment* Rudy presents numerous and fascinating case studies that relate to the evidence of use and damage through touching and or kissing She also puts each study within a category of different ways of handling books mainly liturgical legal or choral practice and in turn connects each practice to the horizontal or vertical behavioural patterns of users within a public or private environment With her keen eye for observation in being able to identify various characteristics of inadvertent and targeted wear the author adds a new dimension to the Medieval book She gives the reader the opportunity to reflect on the social anthropological and historical value of the use of the book by sharpening our senses to the way users handled books in different situations Rudy has amassed an incredible amount of material for this research and the way in which she presents each manuscript conveys an approach that scholars on Medieval history and book materiality should keep in mind when carrying out their own research What perhaps is most striking in her articulate text is how she expresses that the touching of books was not without emotion and the accumulated effects of these emotions are worthy of preservation study and further reflection
