Creating a Successful Christian

Marriage Cleveland McDonald,Philip McDonald,2008-04-01 This classic text written by a father and son team looks at the nuclear family as a social institution and provides guidance for interaction and adjustment during dating engagement and early marriage The authors treat such practical matters as communicating working through interpersonal differences and growing in relationships within the family They also discuss the impact of cultural expectations on family patterns and define ideal family roles developed in Scripture Other topics covered include parenting extended family relationships finances and nontraditional families Now available in paperback

Men in Families Alan Booth,Ann C. Crouter,1998-01-01 Recently the roles of fathers and husbands in families have been recognized as important issues They appear in legislation aimed at deadbeat dads social movements including the Million Man March and Promise Keepers in the development of advocacy groups and in think tanks Therefore contemporary research on men in family relationships has very mixed results Some studies show that fathers have small effects on child development and in preventing antisocial behavior whereas others suggest no effects Other research claims that the primary importance of men in families is in their role as providers Although some studies state that the husbands and fathers most vital work occurs in new families others indicate that it is when their offspring reach adolescence Confusing the issue even further labor market trends predict that men s family roles may diminish Based on the presentations and discussions from a recent national symposium on men in families held at The Pennsylvania State University this book addresses these issues This is the only book that deals with men s involvement in families in a comprehensive way Although several books focus on fathers alone or on a broader family perspective this is the first book that deals with a variety of family roles on an interdisciplinary basis Although most of the writers are psychologists or sociologists there are key figures in history and anthropology who also make important contributions As such this volume will be useful to scholars students policy specialists and family program administrators
