

The Abolition

Leslie Bethell

The Abolition:

The Abolition of the Death Penalty in International Law William Schabas, 2002-09-05 This is the 2002 third edition of William A Schabas's highly praised study of the abolition of the death penalty in international law Extensively revised to take account of developments in the field since publication of the second edition in 1997 the book details the progress of the international community away from the use of capital punishment discussing in detail the abolition of the death penalty within the United Nations human rights system international humanitarian law European human rights law and Inter American human rights law New chapters in the third edition address capital punishment in African human rights law and in international criminal law An extensive list of appendices contains many of the essential documents for the study of capital punishment in international law *The Abolition of the Death Penalty in International Law* is introduced with a Foreword by Judge Gilbert Guillaume President of the International Court of Justice *The Abolition of the Brazilian Slave Trade* Leslie Bethell, 1970 He covers a major aspect of the history of the international abolition of the slave trade **The Abolition of Prison** Jacques Lesage de La Haye, 2021-07-13 *The Abolition of Prison* provides a reflection from a longtime prison abolitionist psychoanalyst and former prisoner on the history theory and practice of anti prison activism in France and globally over the last fifty years This book powerfully makes the case for the end of prisons punishment and guilt and instead suggests we work towards social change care collectivity The book weaves together Lesage de La Haye's own experiences in prison as a psychiatrist and as a social theorist with the simple argument that if we take the reasons for prison and punishment at their word we must evaluate the system as a complete failure So then why continue to support it and funnel money into it **Did the Abolition Movement Abolish Slavery?** Joan Stoltman, 2018-12-15 Readers will explore an essential topic through this book In the United States slavery was an important institution for many farmers especially in the southern states However many people fought against slavery as a legal practice One of the causes of the Civil War was slavery and in 1863 President Abraham Lincoln issued the Emancipation Proclamation freeing slaves in the states that rebelled against the Union Although slaves were officially free many practices such as sharecropping were instituted in some southern states effectively preventing former slaves from improving their lives The abolition movement successfully freed slaves but former slaves had a long way to go before they were truly free *Spain and the Abolition of Slavery in Cuba, 1817-1886* Arthur F. Corwin, 2014-10-03 This book explores the abolition of African slavery in Spanish Cuba from 1817 to 1886 from the first Anglo Spanish agreement to abolish the slave trade until the removal from Cuba of the last vestige of black servitude Making extensive use of heretofore untapped research sources from the Spanish archives the author has developed new perspectives on nineteenth century Spanish policy in Cuba He skillfully interrelates the problem of slavery with international politics with Cuban conservative and liberal movements and with political and economic developments in Spain itself Arthur Corwin finds that the study of this problem falls naturally into two phases the first of which 1817 1860

traces the gradual reduction of the African traffic to the Spanish Antilles and constitutes in effect a study in Anglo Spanish diplomacy He gives special attention here to the aggressive nature of British abolitionist diplomacy and the mounting but generally ineffective indignation resulting from Spanish failure to apply sanctions against the traffic as well as the increasing North American interest in the annexation of Cuba The first phase has for its principal theme the manner in which for decades Spain feigned compliance with agreements to end the slave trade while actually protecting slaveholding interests as the best means of holding Cuba The American Civil War which destroyed the greatest bulwark of black slavery in the New World marked the opening of a new phase 1860 1886 The author strongly emphasizes here such influences as the rise of the Creole reform movement in Cuba and Puerto Rico which reading the signs of the times gave the initial impulse to a Spanish abolitionist movement and contributed to closing the Cuban slave trade in 1866 the liberal revolution of 1868 in Spain and its promise of colonial reforms the outbreak of the great Creole rebellion in Cuba 1868 1878 and the abolitionist promises of the rebel chieftains the threat of American intervention and the abolitionist pressure of American diplomacy and the protests of the Spanish reactionaries in Spain and Cuba leading to further procrastination in Madrid The second phase has as its principal theme the shaping through all these intertwined factors of Spain's first measure of gradual emancipation the Moret Law of 1870 and all subsequent steps toward abolition

The Abolition of the Slave Trade in Southeastern Nigeria, 1885-1950 Adiele Eberechukwu Afigbo, 2006 Afigbo sheds light on a dark corner of social history that has largely been neglected by historians BOOK JACKET

Scotland and the Abolition of Black Slavery, 1756-1838 Iain Whyte, 2006-06-21 Although much has been written about Scottish involvement in slavery the contribution of Scots to the abolition of black slavery has not yet been sufficiently recognised This book starts with a Virginian slave seeking his freedom in Scotland in 1756 and ends with the abolition of the apprenticeship scheme in the West Indian colonies in 1838 Contemporary documents and periodicals reveal a groundswell of revulsion to what was described as the horrible traffik in humans Petitions to Parliament came from remote islands in Shetland as well as from large public meetings in cities In a land steeped in religion ministers and church leaders took the lead in giving theological support to the cause of abolition The contributions of five London Scots who were pivotal to the campaign throughout Britain are set against opposition to abolition from many Scots with commercial interests in the slave trade and the sugar plantations Missionaries and miners trades guilds and lawyers all played their parts in challenging slavery Many of their struggles and frustrations are detailed for the first time in an assessment of the unique contribution made by Scotland and the Scots to the destruction of an institution whose effects are still with us today

Abraham Lincoln and the Abolition of Slavery in the United States Charles Godfrey

Leland, 2019-12-12 In Abraham Lincoln and the Abolition of Slavery in the United States Charles Godfrey Leland explores the moral complexities and political maneuvers surrounding the abolition of slavery through a profound lens of historical analysis Leland employs a narrative non fiction style that intertwines factual documentation with vivid storytelling offering readers an

insightful examination of Lincoln's presidency and his evolving stance on emancipation. Set against the tumultuous backdrop of the American Civil War, this work intricately dissects both the societal attitudes towards slavery and the profound impact of Lincoln's decisions on the course of American history, revealing the interplay between personal conviction and public duty. Charles Godfrey Leland was a multifaceted intellectual known for his contributions as an author, folklorist, and journalist. His rich heritage and exposure to various cultural narratives informed his understanding of social justice and civil rights. Leland's perspective on Lincoln is enriched by his own experiences and studies in the historical and literary contexts of the 19th century, making his synthesis of biography and history deeply resonant. This book is an essential read for anyone interested in the complexities of American history, particularly the ethical dilemmas surrounding slavery and emancipation. Leland's articulate prose and keen insights challenge readers to reflect on the ongoing legacies of Lincoln's actions, making it a valuable addition to both academic and personal libraries.

Remarks on African Colonization and the Abolition of Slavery Cyril Pearl, 1833 **Final Freedom** Michael Vorenberg, 2001-05-21 This book examines emancipation after the Emancipation Proclamation of 1863. Focusing on the making and meaning of the Thirteenth Amendment, *Final Freedom* looks at the struggle among legal thinkers, politicians, and ordinary Americans in the North and the border states to find a way to abolish slavery that would overcome the inadequacies of the Emancipation Proclamation. The book tells the dramatic story of the creation of a constitutional amendment and reveals an unprecedented transformation in American race relations, politics, and constitutional thought. Using a wide array of archival and published sources, Professor Vorenberg argues that the crucial consideration of emancipation occurred after, not before, the Emancipation Proclamation; that the debate over final freedom was shaped by a level of volatility in party politics underestimated by prior historians; and that the abolition of slavery by constitutional amendment represented a novel method of reform that transformed attitudes toward the Constitution.
