**The Hand Reveals** Dylan Warren-Davis,2021-03-31 Cheiromancy is the art of handreading in which all aspects of a person's hand are considered in order to gain an accurate picture of their inner nature Cheiromancy is distinct from the fortune telling of palmistry What has come down to us as palmistry today is a rather degenerate and effete form of this ancient discipline The word cheiromancy comes from the Greek chir meaning hand and manteia meaning divination literally meaning divination through the hand The Hand Reveals is written as a practical guide to reading hands it is not merely theoretical As various points are described through out the book try to apply this knowledge at every opportunity to find confirmation of the ideas There is a considerable amount of knowledge and information compressed into these pages and even the most diligent student would have difficulty in digesting it in one reading It is recommended that you refer back as often as necessary to go the material you have read to allow your understanding of cheiromancy to grow gradually Originally published in 1990 this edition has been revised and updated with new material      **Your Destiny and Scientific Hand**

**Analysis** Yaschpaule,1996 This book is designed to convince the healthy and scientific minded sceptic that hand analysis is a science worthy of serious consideration The laws of scientific hand analysis are presented here in a very simple manner and are amply illustrated by diagrams This book is also intended for those who do not have the faintest concept of what hand analysis or astrology is all about so that no previous knowledge is required for its understanding At the same time the subject of hand analysis has been comprehensively emphasized As such this book will be of interest to professional astrologers In many Eastern countries leading astrologers have a good knowledge of hand analysis Where the horoscope does not give clear guidance on a particular aspect they consult the palms in order to obtain clarification The ideas put forward in this book are based on the Indian Western and Egyptian schools of hand analysis although the Indian system has been used the most The scientific rationale behind the wearing of particular gems in order to ward off evil planetary influences is also succinctly described Above all this is meant to be an eminently straightforward and practical work The sceptic has only to study his own palms to be pleasantly surprised at how accurately hand analysis reveals his own particular case      **Words of Destiny**

Caterina Guenzi,2021-03-01 Astrologers play an important role in Indian society but there are very few studies on their social identity and professional practices Based on extensive fieldwork carried out in the city of Banaras Words of Destiny shows how the Brahmanical scholarly tradition of astral sciences jyoti sha described in Sanskrit literature and taught at universities has been adapted and reformulated to meet the needs and questions of educated middle and upper classes in urban India How to get a career promotion How to choose the most suitable field of study for children When is the best moment to move into a new house The study of astrology challenges ready made assumptions about the boundaries between science and

superstition rationality and magic Rather than judging the validity of astrology as a knowledge system Caterina Guenzi explores astrological counseling as a social practice and how it works from within for both astrologers and their clients She examines the points of view of those who use astrology either as a way of earning their living or as a means through which to solve problems and make decisions concluding that because astrology combines mathematical calculations and astronomical observations with ritual practices it provides educated urban families with an idiom through which modern science and devotional Hinduism can be subsumed

**Astronomy and Astrology in the Islamic World** Stephen P. Blake,2016-04-08 It was the astronomers and mathematicians of the Islamic world who provided the theories and concepts that paved the way from the geocentric theories of Claudius Ptolemy in the second century AD to the heliocentric breakthroughs of Nicholas Copernicus and Johannes Kepler in the sixteenth and seventeenth centuries Algebra the Arabic numeral system and trigonometry all these and more originated in the Muslim East and undergirded an increasingly accurate and sophisticated understanding of the movements of the Sun Moon and planets This nontechnical overview of the Islamic advances in the heavenly sciences allows the general reader to appreciate for the first time the absolutely crucial role that Muslim scientists played in the overall development of astronomy and astrology in the Eurasian world

**The Hand** Lewis Dayton Burdick, 1905 This monograph argues that although legendary stories are not chronicles of actual events they are of historical value in helping us to determine the intellectual characteristics social conditions and moral standards of the various peoples of whose life and literature they have formed a part Believing that all legends fables and myths contain some germs of truth and are invaluable sources of information to us the author has made free use of them in these pages Indeed he argues from them alone sometimes can be gained correct ideas of the true meaning and significance of rites and customs which still in modified survivals form an interesting and important part of our daily lives This book was initially published in 1905

Esoteric Astrology - A New Astrology for a New Millennium Dr. Douglas M. Baker, 2014-04-04 Esoteric Astrology A New Astrology for a New Millennium Volume One The Signs Planets and Houses of the Horoscope This publication takes a new and revitalised look at astrology It is simple to understand yet remains a powerful tool capable of providing a solid foundation for the comprehension of this broad and magnificent subject This textbook like most of Dr Baker's printed books eBooks and DVDs enhances your studies via many charts lists tables and images over 100 in this one This major work is a very comprehensive introduction for those who want to study this subject in earnest and for the more advanced student it will serve as an essential reference manual In today's computer based world it is no longer necessary to spend hours calculating a horoscope when the most modest PCs can do it in seconds and with 100% accuracy Consequently the needless paraphernalia usually associated with learning astrology has been stripped away Emphasis is placed on the application of astrology to the unique problems of the modern world its use as a method of revealing purpose and meaning in life and ultimately as a key to the psychosynthesis of personality The horoscope is described in comprehensive detail with special attention given to the esoteric ruling planets of the zodiac signs which are more relevant than orthodox rulers in the charts of spiritually minded people The new rulers also accommodate the immense changes in external conditions and inner consciousness that have occurred in the last hundred years and are related to a new range of experience which the brain registers as the externa of the modern world The significance of karma is represented for it gives dramatic effect to our daily actions and the third factor of esoteric psychology lying beyond our understanding of heredity and environment is given full prominence This integrative and enriching work can be read alone as a fascinating introduction and foundation to the New Astrology or can be followed up with the author's extensive range of astrological books and video tapes audio lectures and the all embracing Dictionary of Astrology for the 21st Century Together they provide a complete system for the professional and novice alike containing efficient and extraordinary techniques of interpretation which have never been used before and which halve the time required to assimilate and practise astrology

The Hand Lynn Van Praagh-Gratton, Brett Stephan Bass, 2017-09-23 Etched into man's understanding of the creation of life is the foreboding prospect of death surrendering one's mortal flesh to the earth to decay for eternity. But is this apprehension misplaced? Yes. Why? Because it seems that human consciousness survives once a heart no longer beats to live on in a place that the co-authors have come to call Beyond the Beyond. There are a selective few who have been blessed with the gift of being able to receive the frequencies and words of those passing through Eternity's Gate to dwell Beyond the Beyond. And Lynn Van Praagh-Gratton, a nationally renowned psychic medium, is one such person, the beneficiary of a gift inherited from her maternal familial line: great aunt, grandmother, and mother, and now passed on to her son, Dennis Jr. In the architecture of their collaboration, Lynn and Brett have been inspired by a message conveyed two thousand years ago by Lucius Annaeus Seneca, a Roman philosopher and statesman who wrote, "The day which we fear as our last is but the birthday of eternity." And through a combination of two books with an interwoven narrative, they seek to offer understanding, healing, and hope to those who have momentarily lost touch with loved ones. In *The Hand Part I: A Young Man's Search for Eternity's Gate*, Brett Stephan Bass introduces us to Emerson Alexander Weiss, who interrupts a promising career as a theoretical physicist to find a deeper spiritual meaning in life that dispenses with conventional teachings of science, religion, and philosophy. In *The Hand Part II: A Young Man Discovers What Lies Beyond Eternity's Gate*, the co-authors advance meaning to the phrase "Life After Death" in order to bring hope to those despairing, optimism to those who wish to wipe away confounding confusion, and healing love to those grieving the loss of one no longer present. Although the co-authors at times employ elements of a fictional sequence of events, the body of both works lies in personal experiences and reflective beliefs designed to leave in the reader's mind that 1) There is a unifying oneness in the composition of the universe fed by the vitality of light and love; 2) Death is an illusion fed by misguided fear; 3) Passing through Eternity's Gate is a beginning and not an ending; and 4) Life on Earth is intended to prepare us all to live in a domain presently hidden from view called Beyond the Beyond, where we will be embraced by the Source, the universal repository of all knowing and all loving.

The Influence of the Stars Rosa Baughan, 2021-11-26 This book is an extensive study of astrology, containing the results of many years of research. Astrology is an ancient subject. But until recently, this generation seemed to have never cared about the foundation of this belief that has been supported for so many years. Because of long-repressed realism, people have developed a new interest in these old world beliefs, and this book is written to satisfy this interest.
