The Haunted Land:

The Haunted Land Tina Rosenberg, 2010-11-24 The Pulitzer Prize winning look at the collapse of Communism in Eastern Europe
The Haunted Land Tina Rosenberg, 1997-05-20 In four newly democratic countries in Eastern Europe communism's former victims and jailers are struggling to make sense of their history and sometimes rewrite it In this groundbreaking stylishly reported book a journalist travels across the battlefields of memory and asks Who is guilty How should they be punished And who is qualified to judge them in states where almost every citizen was an accomplice In East Germany Tina Rosenberg follows the trial of the border guards charged with the last shooting at the Berlin Wall In the Czech Republic she meets a heroic dissident who has now been ostracized for having once cooperated with the old regime In Poland she speaks with General Wojciech Jaruzelski the one time architect of martial law who now presents himself as his country's savior Out of these stories of conscience and complicity courage and optimism *The Haunted Land* delivers the final chapter of the greatest moral drama of our time

A Covert Action Seth G. Jones, 2018-09-11 A tale of victory for peace for freedom and for the CIA a trifecta rare enough to make for required reading Steve Donoghue *Spectator USA* In 1981 the Soviet backed Polish government declared martial law to crush a budding democratic opposition movement Moscow and Washington were on a collision course It was the most significant crisis of Ronald Reagan's fledgling presidency Reagan authorized a covert CIA operation codenamed QRHELPFUL to support dissident groups particularly the trade union Solidarity The CIA provided money that helped Solidarity print newspapers broadcast radio programs and conduct an information campaign against the government This gripping narrative reveals the little known history of one of America's most successful covert operations through its most important characters spymaster Bill Casey CIA officer Richard Malzahn Solidarity leader Lech Walesa Pope John Paul II and the Polish patriots

who were instrumental to the success of the program Based on in depth interviews and recently declassified evidence A Covert Action celebrates a decisive victory over tyranny for US intelligence behind the Iron Curtain one that prefigured the Soviet collapse

The Return of the Peasant A.L. Cartwright,2017-11-22 This title was first published in 2001 Of the many far reaching issues facing post communist states in the wake of the collapse of communist rule few have continued to pose such dilemmas for future progress as the land question This book provides a historical account of national and local attempts to reform land ownership and agricultural production and in particular the way in which land law defined the land question Using archive work to demonstrate the selectivity of the law in righting wrongs and case studies to illustrate the practical obstacles to attempts at reconstructing the pre communist system this work is a critical and detailed portrait of the forces that stand to shape the future of post communist rural life

The Chinese Lady Nancy E. Davis,2022 In 1834 a Chinese woman named Afong Moy arrived in America as both a prized guest and an advertisement for a merchant firm a promotional curiosity with bound feet and a celebrity used to peddle exotic wares from the East This first biography of Afong Moy explores how she shaped Americans impressions of China while living as a stranger in a foreign land

Preparing for Martial Law ,200? Between July 1980 and December 1981 Poland stumbled through the most serious political crisis faced by a Warsaw Pact member since the Prague Spring in Czechoslovakia in 1968 The resolution of this crisis through the declaration of martial law by the Polish authorities provided only a temporary respite The rise and suppression of the trade union Solidarity followed by the inability of Polish communist authorities to restore political credibility or economic activity were key developments that created the conditions that led to the eventual collapse of the Warsaw Pact by the end of the decade In 1972 Ryszard Kuklinski a senior officer on the Polish General Staff volunteered his services to the United States at a time of increased friction between the Soviet Bloc and the Free World During the Polish crisis from the initial outbreak of labor unrest in July 1980 until the declaration of martial law in December 1981 Col Kuklinski provided periodic reporting and commentary on the chaotic progression of events He focused on the increasing refinement of the plans for introducing martial law the internal political debates surrounding these preparations and the almost constant pressure from Moscow for the Poles to do something to contain and destroy Solidarity

Legal Symbolism Jiří Příbáň,2016-04-22 Jir Prib n s book contributes to the field of systems theory of law in the context of European legal and political integration and constitution making It puts recent European legislative efforts and policies especially the EU enlargement process in the context of legal theory and philosophy Furthermore the author shows that the system of positive law has a symbolic meaning reflecting how it also contributes to the semantics of political identity democratic power and moral values as well as the complex relations between law politics and morality

Transitional Justice in Eastern Europe and the former Soviet Union Lavinia Stan,2009-01-13 During the last two decades the countries of Eastern Europe and the former Soviet Union have attempted to address the numerous human rights abuses that characterized the decades of communist rule This book examines the main

processes of transitional justice that permitted societies in those countries to come to terms with their recent past. It explores the banning of communist officials and secret political police officers and informers from post communist politics, ordinary citizens' access to the remaining archives compiled on them by the communist secret police as well as trials and court proceedings launched against former communist officials and secret agents for their human rights trespasses. Individual chapters explore the progress of transitional justice in Germany, the Czech Republic, Slovakia, Poland, Hungary, Romania, Bulgaria, Albania, Slovenia, and the successor states of the former Soviet Union. The chapters explain why different countries have employed different models to come to terms with their communist past, assess each country's relative successes and failures, and probe the efficacy of country specific legislation to attain the transitional justice goals for which it was developed. The book draws together the country cases into a comprehensive comparative analysis of the determinants of post communist transitional justice that will be relevant not only to scholars of post communist transition but also to anyone interested in transitional justice in other contexts.

United City, Divided Memories? Dirk Verheyen, 2010-01-01. United City Divided Memories focuses on the basic question of how Berlin today deals with three specific Cold War era legacies: the presence of the four Great Powers, the East German Stasi, and the Berlin Wall. Dirk Verheyen studies monuments, museums, and memorial sites as illustrations of Berlin's struggle to craft an effective shared identity that ties together its western and eastern halves.

The German Question Dirk Verheyen, 2018-05-04. The German Question, long a subject of debate, is considered here at the close of a turbulent century after Germany's defeat in two world wars: the Weimar failure and Nazi disaster, Cold War division, and the nation's unexpected recent reunification. This book systematically explores the issue in terms of its four central dimensions: Germany's identity, national unity, power, and role in world politics. Ambitious in conception and meticulous in execution, Dirk Verheyen's wide ranging analysis incorporates historical and geopolitical considerations in an intellectually rigorous yet accessible discussion.

Studies in Intelligence, 2000. Genocide, Collective Violence, and Popular Memory David E. Lorey, William H. Beezley, 2002. Highlights the importance of history in general, emphasizing the importance of symbols, ritual language, and the use of public spaces in coming to terms with episodes of collective violence and achieving national reconciliation.

The Burdens of Freedom Padraic Kenney, 2013-04-04. From Estonia to Macedonia, this book is a history of 15 countries as they negotiate their transition from communism. For some, the story ends happily with triumphant entry into the European Union in 2004. Others are caught in limbo, destroyed by nationalist politics, war, and genocide, or crippled by corrupt political practices. *The Burdens of Freedom* considers the effects of revolutionary change, the resurgence of nationalism, and the painful examination of the past. It looks at the process of building stable democratic states and their integration with international structures. Most of the countries have established admission to the EU as a national objective, but many of them have also been active participants in the American led occupation of Iraq. Domestically, each has seen a divide emerge between winners and losers. All are moving forward.
