Department of Manuscripts,1842 **The Circulation of Poetry in Manuscript in Early Modern England** Arthur F. Marotti,2021-05-26 This study examines the transmission and compilation of poetic texts through manuscripts from the late Elizabethan era through the mid seventeenth century paying attention to the distinctive material social and literary features of these documents The study has two main focuses the first the particular social environments in which texts were compiled and second the presence within this system of a large body of usually anonymous rare or unique poems Manuscripts from aristocratic academic and urban professional environments are examined in separate chapters that highlight particular collections Two chapters consider the social networking within the university and London that facilitated the transmission within these environments and between them Although the topic is addressed throughout the study the place of rare or unique poems in manuscript collections is at the center of the final three chapters The book as a whole argues that scholars need to pay more attention to the social life of texts in the period and to little known or unknown rare or unique poems that represent a field of writing broader than that defined in a literary history based mainly on the products of print culture **Catalogue of Manuscript Music in the British Museum** British Museum. Department of Manuscripts, Augustus Hughes-Hughes,1908 *Music in English Children's Drama of the Later Renaissance* Linda Phyllis Austern,2024-09-30 Originally published in 1992 *Music in English Children's Drama of the Later Renaissance* is the first book length study to examine the Elizabethan and Jacobean children's drama not only from a musicological perspective but also drawing on the histories of literature culture and the theater It gives the children's companies new historical significance showing that they were an integral and ultimately influential part of the London theatrical world These companies originated important features of later drama such as music before and between acts and the exploitation of different timbres for specific effects Those interested in music history English literature theater history and cultural history will find this a comprehensive and fascinating study Of special note are the appendices which offer a unique and important reference source by providing the only definitive list of the plays and songs used by the children

John Milton's Aristocratic Entertainments Cedric C. Brown, 1985-09-05 This book is a comprehensive account of Milton's two aristocratic entertainments Arcades and Comus in the context of their original occasions and in the light of Milton's developing sense of vocation as a poet in the earlier part of his career The book is especially original in the amount of socio historical information it offers about the relationship between the independent and pastorly poet and his aristocratic patrons and about the degree to which Milton was prepared to work within the constraints and decorum of the Caroline masque and country house entertainment A particular feature of the book is the analysis of changes in the texts of the two entertainments from the earliest version in the Trinity College manuscript through to the first printings considering Milton's changing manner of address to the different occasions of performance and publication A degree of tension is discovered between the poet and the organisers of the Ludlow masque and an explanation is given for a kind of censorship in the Bridgewater manuscript of Comus

Uncircumscribed Mind Charles W. Durham, Kristin A. Pruitt, 2008 Includes sixteen essays that represent how challenging stimulating and far ranging are the efforts to read Milton critically and deeply This collection deals with the issue of evil world of Milton's masque and the many worlds of his epic Paradise Lost
