Slavery And The Numbers Game A Critique Of Time On The Cross:

Slavery and the Numbers Game Herbert George Gutman, 2003 This detailed analysis of slavery in the antebellum South was written in 1975 in response to the prior year's publication of Robert Fogel and Stanley Engerman's controversial *Time on the Cross* which argued that slavery was an efficient and dynamic engine for the southern economy and that its success was due largely to the willing cooperation of the slaves themselves. Noted labor historian Herbert G. Gutman was unconvinced even outraged by Fogel and Engerman's arguments. In this book he offers a systematic dissection of *Time on the Cross* drawing on a wealth of data to contest that book's most fundamental assertions. A benchmark work of historical inquiry, Gutman's critique sheds light on a range of crucial aspects of slavery and its economic effectiveness. Gutman emphasizes the slaves' responses to their treatment at the hands of slaveowners. He shows that slaves labored not because they shared values and goals with their masters but because of the omnipresent threat of negative incentives, primarily physical violence. In his introduction to this new edition, Bruce Levine provides a historical analysis of the debate over *Time on the Cross*. Levine reminds us of the continuing influence of the latter book demonstrated by Robert W. Fogel's 1993 Nobel Prize in Economic Sciences and hence the importance and timeliness of Gutman's critique.

Perspectives and Irony in American Slavery Harry P. Owens, 1977 **Society and Culture in the Slave South** J. William Harris, 2013-02-01 Combining established work with that of recent provocative scholarship on the antebellum South, this collection of essays puts students in touch with some of the central debates in this dynamic field. It includes substantial excerpts from the work of Eugene Genovese and Elizabeth Fox Genovese who lay out the influential interpretation of the South as a paternalistic society and culture and contributions from more recent scholars who provide dissenting or alternative interpretations of the relations between masters and slaves and men and women. The essays draw on a wide range of disciplines including economics, psychology, and anthropology to investigate the nature of plantation and family life in the South. Explanatory notes guide the reader through each essay and the Editor's introduction places the work in its historiographical context.

An Empire for Slavery Randolph B. Campbell, 1991-08 Randolph B. Mike Campbell is a professor of history at The University of North Texas. **Invisible Criticism** Alan Nadel, 1988 Paper reissue of the 1972 edition. Crane argues that the social institution responsible for the growth of scientific knowledge is the small group of highly productive scientists who, sharing the same field of study, set priorities for research, recruit and train students, communicate with one another, and thus monitor the rapidly changing structure of knowledge in their field. First published hardcover in 1988, Nadel exposes some of the ways Ellison situates *Invisible Man* in regard to the American literary tradition, comments on that tradition, and in doing so, alters it. Slavery and Freedom on the Middle Ground Barbara Jeanne Fields, 1987-01-01 Examines the history of slavery in Maryland and discusses the conditions of life of Maryland's slaves and free Blacks. **Writing North Carolina History** Jeffrey J. Crow, Larry E. Tise, 2017-10-10 Writing North Carolina History is

the first book to assess fully the historical literature of North Carolina. It combines the talents and insights of eight noted scholars of state and southern history: William S. Powell, Alan D. Watson, Robert M. Calhoon, Harry L. Watson, Sarah M. Lemmon, and H. G. Jones. Their essays are arranged in chronological order from the founding of the first English colony in North America in 1585 to the present. Traditionally, North Carolina has not received the same scholarly attention as Virginia and South Carolina despite the excellent resources available on Tar Heel history. This study, derived from a symposium sponsored by the North Carolina Division of Archives and History in 1977, asks questions and describes methodologies needed to redress past neglect. Besides providing a comprehensive evaluation of what has been written about North Carolina, the essayists offer perspectives on how historians have interpreted the state's history and what directions future historians need to take. Particularly important, the book provides a bibliography and suggests opportunities for future historical investigation by discussing topics, themes, and source materials that remain untapped or underused. North Carolina's unique and colorful culture, folklore, geography, politics, and growth demand new and creative historical analysis. Collectively, the authors and editors of *Writing North Carolina History* offer a welcome, necessary guide to the study of Tar Heel history. Imagined Histories Anthony Molho, Gordon S. Wood, 2018-06-05. This collection of essays by twenty-one distinguished American historians reflects on a peculiarly American way of imagining the past. At a time when history writing has changed dramatically, the authors discuss the birth and evolution of historiography in this country from its origins in the late nineteenth century through its present, more cosmopolitan character. In the book's first part, concerning recent historiography, are chapters on exceptionalism, gender, economic history, social theory, race, and immigration and multiculturalism. Authors are Daniel Rodgers, Linda Kerber, Naomi Lamoreaux, Dorothy Ross, Thomas Holt, and Philip Gleason. The three American centuries are discussed in the second part, with chapters by Gordon Wood, George Fredrickson, and James Patterson. The third part is a chronological survey of non-American histories, including that of Western civilization, ancient history, the middle ages, early modern and modern Europe, Russia, and Asia. Contributors are Eugen Weber, Richard Saller, Gabrielle Spiegel, Anthony Molho, Philip Benedict, Richard Kagan, Keith Baker, Joseph Zizak, Volker Berghahn, Charles Maier, Martin Malia, and Carol Gluck. Together, these scholars reveal the unique perspective American historians have brought to the past of their own nation as well as that of the world. Formerly writing from a conviction that America had a singular destiny, American historians have gradually come to share viewpoints of historians in other countries about which they write. The result is the virtual disappearance of what was a distinctive American voice. That voice is the subject of this book. **Visions of History** Edward Palmer Thompson, MARHO (Organization), 1983. Slavery, Southern Culture, and Education in Little Dixie, Missouri, 1820-1860 Jeffrey C. Stone, 2013-09-13 This dissertation examines the cultural and educational history of central Missouri between 1820 and 1860 and in particular the issue of master slave relationships and how they affected education broadly defined as the transmission of Southern culture Although Missouri had one of the lowest slave populations during the Antebellum period Central Missouri or what became known as Little Dixie had slave percentages that rivaled many regions and counties of the Deep South However slaves and slave owners interacted on a regular basis which affected cultural transmission in the areas of religion work and community Generally slave owners in Little Dixie showed a pattern of paternalism in all these areas but the slaves did not always accept their masters paternalism and attempted to forge a life of their own *The Harvard Guide to African-American History* Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America Slavery and Historical Capitalism during the Nineteenth Century Dale Tomich, 2017-10-16 This book examines the historiography of nineteenth century slavery from the perspective of the second slavery The concept of the second slavery emphasizes the relationship between local histories and world economic transformations It breaks with conventional narratives of slavery by emphasizing the expansion of reconfigured slaveries in extensive new zones of commodity production in Brazil Cuba and the US South as part of world economic processes of decolonization industrialization urbanization and the creation of mass markets Thus slavery was not a moribund institution Capitalist modernity liberal ideology and anti slavery from above or from below faced a vigorous foe that operated within the very economic political and cultural premises of the changing 19th century world This perspective offers an original approach to the history of slavery It has opened up vigorous debates over slavery and anti slavery Atlantic history and

Known for My Work Lynda J. An Abolitionist in the Appalachian South Ezekiel Birdseye, Durwood Dunn, 1997 This volume a collection of letters written by an abolitionist businessman who lived in East Tennessee prior to the Civil War provides one of the clearest firsthand views yet published of a region whose political social and economic distinctions have intrigued historians for more than a century Between 1841 and 1846 Birdseye expressed his views and observations in letters to Gerrit Smith a prominent New York reformer who arranged to have many of them published in antislavery newspapers such as the *Emancipator* and *Friend of Man* Those

letters reproduced in this book drew on Birdseye's extensive conversations with slaveholders, nonslaveholders, and the slaves themselves. He found that East Tennesseans, on the whole, were antislavery in sentiment, susceptible to rational abolitionist appeal, and generally far more lenient toward individual slaves than were other southerners. Opposed to slavery on economic as well as moral grounds, Birdseye sought to establish a free labor colony in East Tennessee in the early 1840s and actively supported the region's abortive effort in 1842 to separate itself from the rest of the state. [The Overseers of Early American Slavery](#) Laura R. Sandy, 2020-04-03 Enmeshed in the exploitative world of racial slavery, overseers were central figures in the management of early American plantation enterprises. All too frequently dismissed as brutal and incompetent, they defy easy categorization. Some were rogues; yet others were highly skilled professionals, farmers, and artisans. Some were themselves enslaved. They and their wives, with whom they often formed supervisory partnerships, were caught between disdainful planters and defiant enslaved laborers as they sought to advance their ambitions. Their history, revealed here in unprecedented detail, illuminates the complex power struggles and interplay of class and race in a volatile slave society.

[Racial Classification and History](#) E. Nathaniel Gates, 1997 Explores the concept of race. The term race, which originally denoted genealogical or class identity, has in the comparatively brief span of 300 years taken on an entirely new meaning. In the wake of the Enlightenment, it came to be applied to social groups. This ideological transformation, coupled with a dogmatic insistence that the groups so designated were natural and not socially created, gave birth to the modern notion of races as genetically distinct entities. The results of this view were the encoding of race and racial hierarchies in law, literature, and culture. How racial categories facilitate social control. The articles in the series demonstrate that the classification of humans according to selected physical characteristics was an arbitrary decision that was not based on valid scientific method. They also examine the impact of colonialism on the propagation of the concept and note that racial categorization is a powerful social force that is often used to promote the interests of dominant social groups. Finally, the collection surveys how laws based on race have been enacted around the world to deny power to minority groups. A multidisciplinary resource. This collection of outstanding articles brings multiple perspectives to bear on race theory and draws on a wider range of periodicals than even the largest library usually holds. Even if all the articles were available on campus, chances are that a student would have to track them down in several libraries and microfilm collections. Providing, of course, that no journals were reserved for graduate students, out for binding, or simply missing. This convenient set saves students substantial time and effort by making available all the key articles in one reliable source. Authoritative commentary. The series editor has put together a balanced selection of the most significant works, accompanied by expert commentary. A general introduction gives important background information and outlines fundamental issues, current scholarship, and scholarly controversies. Introductions to individual volumes put the articles in context and draw attention to germinal ideas and major shifts in the field. After reading the material, even a beginning student will have an excellent grasp of the basics of
