The Rise of the Indo-Afghan Empire, c. 1710-1780 Jos J.L. Gommans, 2023-11-27 The Rise of The Indo-Afghan Empire c. 1710-1780 deals with the magnificent world of Afghan nomads, horse dealers and mercenaries bridging the frontiers between the old metropolitan centres of India, Iran and Central Asia. During the eighteenth century they succeeded in establishing a vigorous new system of Indo-Afghan states. In Central Asia the Afghans created an imperial tradition on the basis of long-standing Perso-Islamic ideals. In India, along the caravan routes with Turkistan and Tibet, they carved out thriving principalities in association with military service and the breeding and trade in war horses. By fully incorporating this Afghan ascendancy into the fabric of Islamic and world history, the author challenges the widely held notion of a gloomy Afghan past.

Max Weber and Islam Wolfgang Schluchter, 2019-01-22 Max Weber and Islam is a major effort by Islamic studies specialists to reexamine and appraise Max Weber's perspectives on Islam and its historical development. Eight specialists on Islam and two sociologists explore many dimensions of Weber's comments on Islam along with Weber's conceptual framework. The volume's introduction links the discussions to contemporary issues and debates. Wolfgang Schluchter reconstructs Weber's conceptual apparatus as it applies to Islam and its historical development. In subsequent chapters, Islamic specialists consider such major topics as the developmental history of Islam, Islamic fundamentalism, Islamic reform, Islamic law and capitalism, secularization in Islam, as well as the value of attempting to apply Weber's concept of sects to Islam. While some authors find flaws in Weber's factual knowledge of Islam, they also find considerable merit in the kinds of questions Weber raised. Contributors to the volume include highly respected contemporary international scholars of Islam: Ira Lapidus, Nehemia Levtzion, Richard M. Eaton, Peter Hardy, Rudolph Peters, Barbara Metcalf, Francis Robinson, Patricia Crone, Michael Cook, and S. N. Eisenstadt. Toby Huff's introduction not only knits the thematics of the separate essays together but adds its own stresses while engaging the contributors in dialogue and debate about fundamental issues. This acute collective analysis establishes a new benchmark for understanding Weber and Islam. This book also provides an up-to-date overview of the developmental history of many aspects of Islam. A major reappraisal of the entire span of Max Weber's sociological thought on Islam, this book will appeal to a wide range of scholars and laymen interested in the Islamic world. It will be of particular interest to sociologists specializing in religion and Middle East area specialists.

Slaves, Warfare, and Ideology in the Greek Historians Peter Hunt, 2002-05-09 This book challenges conventional opinion by arguing that slaves and Helots played an important part in classical Greek warfare. Although rival city states often used these classes in their own forces or tried to incite their enemies' slaves to rebellion or desertion, such recruitment was ideologically awkward: slaves or Helots despised and oppressed classes should have had no part in the military service so closely linked with citizenship, with rule, and even with an individual's basic worth. Consequently, their participation has

tended to drop out of the historical record Focusing on Herodotus Thucydides and Xenophon this study attempts to demonstrate the actual role played by slaves and Helots in warfare the systematic neglect of the subject by these historians and the ideologies motivating this reticence Islamic Societies to the Nineteenth Century Ira M. Engerman,David Richardson,2021-08-12 Medieval slavery has received little attention relative to slavery in ancient Greece and Rome and in the early modern Atlantic world This imbalance in the scholarship has led many to assume that slavery was of minor importance in the Middle Ages In fact the practice of slavery continued unabated across the globe throughout the medieval millennium This volume the final volume in The Cambridge World History of Slavery covers the period between the fall of Rome and the rise of the transatlantic plantation complexes by assembling twenty three original essays written by scholars

acknowledged as leaders in their respective fields The volume demonstrates the continual and central presence of slavery in societies worldwide between 500 CE and 1420 CE The essays analyze key concepts in the history of slavery including gender trade empire state formation and diplomacy labor childhood social status and mobility cultural attitudes spectrums of dependency and coercion and life histories of enslaved people *Possessed by the Right Hand* Bernard K.

Hidemitsu,2013-11-05 First Published in 2003 This volume explores various aspects of human mobility both spatial and social in Muslim societies from the earliest Islamic period to the present times In general a high mobility among Muslims has been observed throughout their history to say nothing of the fact that the pilgrimage to Mecca is one of the five religious duties or that many Muslim travelers such as Ibn Battuta moved over vast areas However the social and political impact of their movement voluntary or forced has rarely been analyzed in terms of a multi disciplinary approach Researchers specializing in history anthropology sociology psychology and politics from eight countries have contributed their insights on both Muslim

and non Muslim mobility in this multi faceted volume which will shed new light on the meaning of mobility and the movement of human beings in the even more globalized world of today Slaves of One Master Matthew S. Hopper,2015-01-01

Slaves of the Shah Sussan Babaie, Kathryn Babayan, Ina Baghdiantz-MacCabe, Mussumeh Farhad, 2004-07-23

The Savafid dynasty represented in political cultural and economic terms the pinnacle of Iran s power and influence in its early modern history The evidence for this the creation of a nation state military expansion and success economic dynamism and the exquisite art and architecture of the period is well known What is less understood is the extent to which the Safavid success depended on and was a product of a class of elite originating from outside Iran the slaves of Caucasian descent and the Armenian merchants of New Julfa in the city of Isfahan It was these groups bolstered by Shah Abbas the Great 1589 1629 and his successors who became the pillars of Safavid political economic and cultural life This book describes how these elites following their conversion to Islam helped to form a new language of Savafid absolutism It documents their contributions financed by the Armenian trade in Safavid silk to the transformation of Isfahan s urban artistic and social landscape The insights provided here into the multi faceted roles of the Safavid royal household offer an original and comprehensive study of slave elites in imperial systems common to the political economies of the Malmuk Ottoman and Safavid courts as well as contributing to the earlier Abbasid Ghaznavid and Saljuq eras As such this book makes an original and important contribution to our understanding of the history of the Islamic world from the 16th to the 18th centuries and will prove invaluable for students and scholars of the period

The Pursuit of Power William H. McNeill, 2024-05-31

Remind s us that all humankind has a shared past and particularly with regard to its choice of weapons and warfare a shared stake in the future Stuart Rochester The Washington Post Book World In this magnificent synthesis of military technological and social history William H McNeill explores a whole millennium of human upheaval and traces the path by which we have arrived at the frightening dilemmas that now confront us McNeill moves with equal mastery from the crossbow banned by the Church in 1139 as too lethal for Christians to use against one another to the nuclear missile from the sociological consequences of drill in the seventeenth century to the emergence of the military industrial complex in the twentieth His central argument is that a commercial transformation of world society in the eleventh century caused military activity to respond increasingly to market forces as well as to the commands of rulers Only in our own time suggests McNeill are command economies replacing the market control of large scale human effort The Pursuit of Power does not solve the problems of the present but its discoveries hypotheses and sheer breadth of learning do offer a perspective on our current fears and as McNeill hopes a ground for wiser action Mr McNeill s comprehensiveness and sensitivity do for the reader what Henry James said that Turgenev s conversation did for him they suggest all sorts of valuable things This narrative of rationality applied to irrational purposes and of ingenuity cannibalizing itself is a work of clarity which delineates mysteries The greatest of them to my mind

is why human beings have never learned to cherish their own species Naomi Bliven The New Yorker

Warriors, Merchants, and Slaves, 1987 Over the course of two centuries the region of the Middle Niger valley of the Western Sudan was dominated by three successive states the indigenous Segu Bambara state the Islamic Umariyan state and the French colonial state In each of these states warriors were the rulers and not surprisingly warfare was the primary expression of state power The survival of each state depended on its ability to reproduce its capacity to make war in order to do so the warrior state intervened in the economy In each of the three states the interrelationship of warfare the state and the economy produced different results How the state actually intervened in the economy and how this intervention influenced the structure and performance of the economy is the subject of this book During the 200 years under study the regional economy of the Middle Niger valley expanded and contracted in response to the state's capacity to provide conditions favorable to commercial development capital accumulation and investment When

the Segu Bambara state was able to control the autonomy of its warriors the state encouraged the expansion of the regional economy The Umarians on the other hand preyed upon producers within the region and created conditions that discouraged long term investments The very success of the French conquest initially encouraged investment especially in the form of slaves After 1894 however conflict between civilian colonial authorities and the French military undermined the economic and social foundations erected by the military From 1905 to 1914 slaves left their masters and helped once again to transform the structure and performance of the economy
