

SLIPS OF TONGUE AND PSYCHOLINGUISTICS

In Psycholinguistics tongue slips are one kind of speech errors which are regarded mostly as errors of articulation.

Serendre Shutter in 2004 stated that:

It is a complicated mental processing which is happening entirely below the level of consciousness, so we're not aware of doing anything except when we hear ourselves saying something funny, and its all happening at such lightning speed that we're not aware of any time these steps are taking.
