MATHEMATICAL REALITY Linfan MAO, A thing is complex and hybrid with other things sometimes Then what is the reality of a thing The reality of a thing is its state of existed exists or will exist in the world independent on the understanding of human beings which implies that the reality holds on by human beings maybe local or gradual not the reality of a thing Hence to hold on the reality of things is the main objective of science in the history of human development Unfolding the Labyrinth: Open Problems in Physics, Mathematics, Astrophysics, and other areas of science Florentin Smarandache,V.
