LeCroy, 2008-04-18 With the advance of evidence based practice has come the publication of numerous dense volumes reviewing the theoretical and empirical components of child and adolescent treatment There are also a variety of detailed treatment manuals that describe the step by step procedures to guide ongoing research and

practice The second edition of Craig Winston LeCroy's Handbook of Evidence Based Child and Adolescent Treatment Manuals is a forceful combination of the two approaches as he gathers fifteen varied treatment manuals and brief summaries of the research supporting each to ensure that practitioners will truly understand how to implement the treatments they are using A completely revised and expanded edition of the handbook's first edition this is an essential guide to some of the best programs for helping children and teens Each chapter begins with an explanatory section that discusses the theoretical and empirical underpinnings of the programs The treatment manual follows leading readers through sessions with specific details about conducting the treatment that have been refined and improved through extensive testing and research Organized into three sections the major clinical disorders social problems confronting children and teens and preventive interventions the Handbook brings together some of the most esteemed researcher practitioners in the child and adolescent field The book presents an impressive variety of innovative treatment programs and techniques including the SiHLE program intended to prevent problems confronting children and teens and preventive interventions the Handbook brings together some of the most esteemed researcher practitioners in the child and adolescent field The book presents an impressive variety of innovative treatment programs and techniques including the SiHLE program intended to prevent HIV through education and self esteem building the Children of Divorce Intervention Program a therapy for younger children stressing resilience and skill building and Strengths Oriented Family Therapy which reaches out to substance involved adolescents and their families The Handbook of Evidence Based Child and Adolescent Treatment Manuals is an indispensable reference for researchers graduate students and practitioners working with children and adolescents in a multitude of settings from schools and juvenile correction centers to group homes and family service agencies Death And Trauma Charles R. Figley, Brian E. Bride, Nicholas Mazza, 2022-09-16 First published in 1997 Although the fields of thanatology and traumatology have received robust attention during their parallel development little effort has been made to address their overlapping territory This volume is the first attempt to do so Specifically the purpose of this book is fourfold First is to provide a theoretical bridge between the two fields by providing conceptual terminology such as defining normal versus dysfunctional bereavement and the meaning and range of death related PTSD The second confirms and illustrates the identical patterns of reactions between those who survive the death of a loved one and those who survive other traumatic events Next the book applies the most useful theoretical models to the bereavement experience and in turn acknowledges the utility of generalizing bereavement models to other traumatic experiences in doing so the two fields can enrich each other Similarly the volume's final purpose is to identify and apply the most useful and effective approaches in traumatology literature to the study diagnosis and treatment of traumatic stressors other than death Be More Productive—Slow Down Bud Roth, 2011-09-20 The daily pressures of our overcommitted lifestyles can throw us out of control as we deal with the stressful conditions of fear rapid change and home pressures In Be More ProductiveSlow Down author Bud Roth suggests methods of reflection as well as
