The Publishers Weekly ,1923 Zoo Renewal Lisa Uddin,2015-04-01 Why do we feel bad at the zoo In a fascinating counterhistory of American zoos in the 1960s and 1970s Lisa Uddin revisits the familiar narrative of zoo reform from naked cages to more naturalistic enclosures She argues that reform belongs to the story of cities and feelings toward many of their human inhabitants In Zoo Renewal Uddin demonstrates how efforts to make the zoo more natural and a haven for particular species reflected white fears about the American city and pointedly how the shame many visitors felt in observing confined animals drew on broader anxieties about race and urban life Examining the campaign against cages renovations at the National Zoo in Washington D C and the San Diego Zoo and the cases of a rare female white Bengal tiger and a collection of southern white rhinoceroses Uddin unpacks episodes that challenge assumptions that zoos are about other worlds and other creatures and expand the history of U S urbanism Uddin shows how the drive to protect endangered species and to ensure larger safer zoos was shaped by struggles over urban decay suburban growth and the dilemmas of postwar American whiteness In so doing Zoo Renewal ultimately reveals how feeling bad or good at the zoo is connected to our feelings about American cities and their residents **Zoo Animal Welfare** Terry Maple,Bonnie M Perdue,2013-03-22 Zoo Animal Welfare thoroughly reviews the scientific literature on the welfare of zoo and aquarium animals Maple and Perdue draw from the senior author s 24 years of experience as a zoo executive and international leader in the field of zoo biology The authors academic training in the interdisciplinary field of psychobiology provides a unique perspective for evaluating the ethics practices and standards of modern zoos and aquariums The book offers a blueprint for the implementation of welfare measures and an objective rationale for their widespread use Recognizing the great potential of zoos the authors have written an inspirational book to guide the strategic vision of superior welfare oriented institutions The authors speak directly to caretakers working on the front lines of zoo management and to the decision makers responsible for elevating the priority of animal welfare in their respective zoo In great detail Maple and Perdue demonstrate how zoos and aquariums canbe designed to achieve optimal standards of welfare and wellness **A History of the Committee on House**
