Rethans,A.F.W. van der Steeg,2012-12-06 About 550 registrants from 51 different countries attended the Seventh Ottawa Conference on Medical Education and Assessment in Maastricht We

received 525 abstracts for the conference divided in thematic poster sessions and platform presentations Organising the conference was an honour and we tried to meet the high standards of a friendly and relaxed atmosphere which has characterized previous Ottawa conferences During and after the conference about 250 papers were submitted for publication in the conference proceedings leaving us little time for a post conference depression Despite the large number of papers the editors have attempted to review and edit the papers as care fully as possible Occasionally however correspondence exceeded reasonable deadlines preventing careful editing of a small number of the papers Although we felt that our editorial task was not quite finished we nevertheless decided to include these papers We thank the many authors for their enthusiastic and prompt response to occasionally tedious editorial suggestions and requests We are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education The editors want to thank Jocelyn Flippo Berger whose expertise with desk top publishing and perseverance was a great help

Cumulated Index Medicus, 1979 **Curriculum Models for the 21st Century** Maree Gosper, Dirk Ifenthaler, 2013-08-28 Changing student profiles and the increasing availability of mainstream and specialized learning technologies are stretching the traditional face to face models of teaching and learning in higher education Institutions too are facing far reaching systemic changes which are placing strains on existing resources and physical infrastructure and calling into question traditional ways of teaching through lectures and tutorials And with an ever increasing scrutiny on teaching and teachers accountability for positive educational outcomes the call for closer attention to learning teaching and most especially to the design and delivery of the curriculum is given increasing relevance and importance Research provides strong evidence of the potential for technologies to facilitate not only cognition and learning but also to become integral components in the redesign of current curriculum models Some Universities and individual academics have moved along this pathway developing new and innovative curriculum blending pedagogies and technologies to suit their circumstances Yet there are others unsure of the possibilities the opportunities and constraints in these changing times Curriculum Models for the 21st Century gives insights into how teaching and learning can be done differently The focus is on a whole of curriculum approach looking at theoretical models and examples of practice which capitalize on the potential of technologies to deliver variations and alternatives to the more traditional lecture based model of University teaching
