Some Historical Account of Guinea, Its Situation, Produce, and the General Disposition of Its Inhabitants An Inquiry Into the Rise and Progress of the Slave Trade, Its Nature and Lamentable Effects Anthony Benezet, 2004 **Some Historical Account of Guinea** Anthony Benezet, 1968 This Elibron Classics title is a reprint of the original edition published by J Phillips in London 1788 **Slave Empire** Padraic X. Scanlan, 2020-11-26 Engrossing and powerful rich and thought provoking Fara Dabhoiwala Guardian Path breaking a major rewriting of history Mihir Bose Irish Times Slave Empire is lucid elegant and forensic It deals with appalling horrors in cool and convincing prose The Economist The British empire in sentimental myth was more free more just and more fair than its rivals But this claim that the British empire was free and that for all its flaws it promised liberty to all its subjects was never true The British empire was built on slavery Slave Empire

puts enslaved people at the centre the British empire in the eighteenth and nineteenth centuries In intimate human detail Padraic Scanlon shows how British imperial power and industrial capitalism were inextricable from plantation slavery With vivid original research and careful synthesis of innovative historical scholarship *Slave Empire* shows that British freedom and British slavery were made together Some Historical Account of Guinea, Its Situation, Produce and the General Disposition of Its Inhabitants with an Inquiry Into the Rise and Progress of the Slave Trade ... Antoine Benezet, 1788 If We Must Die Eric Robert Taylor, 2009-03-01 *If We Must Die* examines nearly five hundred shipboard rebellions that occurred over the course of the entire slave trade directly challenging the prevailing thesis that such resistance was infrequent or insignificant As Eric Robert Taylor shows though most revolts were crushed quickly others raged on for hours days or weeks and occasionally the Africans captured the vessel and returned themselves to freedom In recounting these rebellions Taylor suggests that certain factors like geographic location the involvement of women and children and the timing of a shipboard revolt determined the difference between success and failure Taylor also explores issues like aid from other ships punishment of slave rebels and treatment of sailors captured by the Africans *If We Must Die* expands the historical view of slave resistance revealing a continuum of rebellions that spanned the Atlantic as well as the centuries These uprisings Taylor argues ultimately helped limit and end the traffic in enslaved Africans and also served as crucial predecessors to the many revolts that occurred subsequently on plantations throughout the Americas **The Unnatural Trade** Brycchan Carey, 2024-08-27 A look at the origins of British abolitionism as a problem of eighteenth century science as well as one of economics and humanitarian sensibilities How did late eighteenth century British abolitionists come to view the slave trade and British colonial slavery as unnatural a dread perversion of nature Focusing on slavery in the Americas and the Caribbean in particular alongside travelers accounts of West Africa Brycchan Carey shows that before the mid eighteenth century natural histories were a primary source of information about slavery for British and colonial readers These natural histories were often ambivalent toward slavery but they increasingly adopted a proslavery stance to accommodate the needs of planters by representing slavery as a natural phenomenon From the mid eighteenth century abolitionists adapted the natural history form to their own writings and many naturalists became associated with the antislavery movement Carey draws on descriptions of slavery and the slave trade created by naturalists and other travelers with an interest in natural history including Richard Ligon Hans Sloane Griffith Hughes Samuel Martin and James Grainger These environmental writings were used by abolitionists such as Anthony Benezet James Ramsay Thomas Clarkson and Olaudah Equiano to build a compelling case that slavery was unnatural a case that was popularized by abolitionist poets such as Thomas Day Edward Rushton Hannah More and William Cowper *Slavery, Abolition and Emancipation Vol 2* Peter J Kitson, Debbie Lee, Anne K Mellor, James Walvin, 2020-04-27 Most writers associated with the first generation of British Romanticism Blake Coleridge Wordsworth Southey Thelwall and others wrote against the slave trade This edition collects a corpus of work which reflects

the issues and theories concerning slavery and the status of the slave **Consumption Of Culture** Ann Bermingham, John Brewer, 2013-09-13 First published in 1995 Routledge is an imprint of Taylor Francis an informa company **The Consumption of Culture, 1600-1800** Ann Bermingham, John Brewer, 1995 Some Historical Account of Guinea Anthony Benezet, 1772 **Politic Writings John Wesley** Graham Maddox, 1998-08-15 The political writings of John Wesley 1703 1791 reveal a passionate campaigner engaged throughout his life with the care of the oppressed His life was one of great paradox as a high churchman and Tory living under the instruction of the Bible tradition set him against radical change yet few individuals could have been more responsible for upheaval in church and society He believed scriptures set him against the cause of democracy yet scarcely one other single person could have contributed more to its realization His gospel religion inflamed in him an outrage at the social and political evils of his day that was barely matched by the more explicitly radical of his contemporaries This volume collects addresses and pamphlets that capture Wesley's views on a variety of political subjects including the nature of political power his response to Richard Price's *Observations on Liberty* his views on slavery on poverty on the secession of the American colonies and on the luxury of the rich Together they make clear the relevance of Wesley to subsequent developments in the abolition of slavery and the evolution of labour politics The book features an extensive new introduction by the editor Towards the Light A. C. Grayling, 2014-06-19 From the Reformation to the Universal Declaration of Human Rights A C Grayling tells the story of the 500 year battle for liberty in the West *A Chesapeake Family and Their Slaves* Anne E. Yentsch, 1994-05-12 This book is a unique archaeological study of a British aristocratic family in eighteenth century Chesapeake *Humanitarianism, empire and transnationalism, 1760-1995* Joy Damousi, Trevor Burnard, Alan Lester, 2022-03-08 This is the first book to examine the shifting relationship between humanitarianism and the expansion consolidation and postcolonial transformation of the Anglophone world across three centuries from the antislavery campaign of the late eighteenth century to the role of NGOs balancing humanitarianism and human rights in the late twentieth century Contributors explore the trade offs between humane concern and the altered context of colonial and postcolonial realpolitik They also showcase an array of methodologies and sources with which to explore the relationship between humanitarianism and colonialism These range from the biography of material objects to interviews as well as more conventional archival enquiry They also include work with and for Indigenous people whose family histories have been defined in large part by humanitarian interventions Catalogue of the printed books in the library of the Faculty of advocates National library of Scotland, 1863 *Toward the Light of Liberty* A. C. Grayling, 2009-05-26 The epic story of the interlocking struggles to achieve the individual rights and freedoms that characterize Western civilization by one of the world's leading public intellectuals Perhaps the hallmark of western civilization over the past five hundred years writes A C Grayling is the series of liberation struggles without which the ordinary citizen in Western countries would not enjoy the rights and freedoms we now take for granted They began with the often violent battle to allow independent thought

uncontrolled by the Church which led in time to political freedom as monarchies were gradually replaced by more representative forms of government These in turn made possible the abolition of slavery rights for working men and women universal education the enfranchisement of women and much more Each of these struggles was a memorable human drama and Grayling skillfully interweaves the stories of celebrated and little known heroes alike from Martin Luther and John Locke to the sixteenth century French scholar Sebastien Castellio and the nineteenth century feminist Elizabeth Cady Stanton The triumphs and sacrifices of those who dared to oppose authority ring loudly down the ages proving how hard won each successive victory has been And yet as Grayling persuasively shows in a cautionary coda democratic governments under pressure have often thought it necessary to restrict rights in the name of freedom further underlining how precious they are Toward the Light of Liberty is thus particularly relevant as we head toward an election season in which our own civil liberties will surely be an issue
