These developments have important implications for narratology Traditional conceptions of narrative define its core components as setting characters and plot but nonhuman entities play a crucial role in characterizing the setting in enabling or impeding the actions of characters and thus in determining plot Marie Laure Ryan and Tang Weisheng combine a theoretical approach that defines the basic narrative functions of objects with interpretive studies of narrative texts that rely more closely on ideas advanced by proponents of new object philosophy Object Oriented Narratology opens new theoretical horizons for narratology and offers individual case studies that demonstrate the richness and diversity of the ways in which narrative both Western and non Western deals with humans relationships to their material environment and with the otherness of objects **Mustang Sally** Edward Allen,1994 When the semester s work at Amherst College of Indiana that is teaching English to the dismally under motivated comes to a close Pack Schmidt marks high and is out the door to his favorite place on earth Las Vegas
