Somerset South And West Pevsner Buildings Of England Series:

Greater Medieval Houses of England and Wales, 1300-1500: Volume 3, Southern England Anthony Emery, 2006-03-09

This is the third volume of Anthony Emery's magisterial survey *Greater Medieval Houses of England and Wales 1300-1500* first published in 2006. Across the three volumes Emery has examined afresh and reassessed over 750 houses, the first comprehensive review of the subject for 150 years. Covered are the full range of leading homes from royal and episcopal palaces to manor houses as well as community buildings such as academic colleges, monastic granges and secular colleges of canons. This volume surveys Southern England and is divided into three regions, each of which includes a separate historical and architectural introduction as well as thematic essays prompted by key buildings. The text is complemented throughout by a wide range of plans and diagrams and a wealth of photographs showing the present condition of almost every house discussed. This is an essential source for anyone interested in the history, architecture and culture of medieval England and Wales.

South and West Somerset Nikolaus Pevsner, 2001-01-01. The rural southern part of Somerset is particularly rich in church architecture, from the poetic ruins of Glastonbury Abbey to the plain geometry of Lutyens's chapel at Brushford. Also discussed are Somerset's elaborate pinnacled church towers.

The Medieval Chantry Chapel Simon Roffey, 2007. An archaeological investigation into the structure of the medieval chantry chapel, with many implications for religious practice at the time. The chantry, a special often private chapel within a church dedicated to a particular benefactor or benefactor's family, where prayers for the benefactor's soul were said, was probably the most common and also one of the most distinctive of all late medieval religious foundations. These structures, although much altered with time, are still a very noticeable feature of many late medieval parish churches. However, no systematic thorough or comparative examination has been undertaken to discover what they may reveal about contemporary devotion, aspiration and planning. This is a void which this book seeks to fill. It shows how the use of archaeological approaches can illuminate aspects of medieval religious practice only hinted at in many historical documents; it also demonstrates how the structural and spatial analysis of former chantry chapels can shed light on the level of private and communal piety and reveal a wider, more universal context to chantry foundation in the medieval parish church. In addition, it discusses how various personal strategies for intercession shaped both chapel space and fabric and the ultimate effects of the Reformation on such structures. Includes a selected gazetteer of chantry chapels. Dr SIMON ROFFEY teaches in the Department of Archaeology at the University of Winchester.

Reconstructing the Development of Somerset's Early Medieval Church Carole Lomas, 2024-05-09. This book uses Somerset as a case study to contribute to a broader understanding of how the Church developed across the British Isles during the transition from the post-Roman Church to the 11th century. It collates and cross-references all earlier research and offers the most up-to-date study of Somerset's post-Roman churches.
