## **Something About The Author Vol 106 Something About The Author Ser:**

Brown Gold Michelle Martin, 2004-03-01 Brown Gold is a compelling history and analysis of African American children's picturebooks from the mid nineteenth century to the present. At the turn of the nineteenth century good children's books about black life were hard to find if indeed young black readers and their parents could even gain entry into the bookstores and libraries. But today in the Golden Age of African American children's picturebooks one can find a wealth of titles ranging from *Happy to be Nappy* to *Black is Brown is Tan*. In this book Michelle Martin explores how the genre has evolved from problematic early works such as *Epaminondas* that were rooted in minstrelsy and stereotype through the civil rights movement and onward to contemporary celebrations of blackness. She demonstrates the cultural importance of contemporary favorites through keen historical analysis scrutinizing the longevity and proliferation of the *Coontown* series and *Ten Little Niggers* books for example that makes clear how few picturebooks existed in which black children could see themselves and their people positively represented even up until the 1960s. Martin also explores how children's authors and illustrators have addressed major issues in black life and history including racism the civil rights movement black feminism major historical figures religion and slavery. Brown Gold adds new depth to the reader's understanding of African American literature and culture and illuminates how the round dynamic characters in these children's novels novellas and picturebooks can put a face on the past a face with which many contemporary readers can identify.

Eleanor Cameron Paul V. Allen, 2018-02-20 Eleanor Cameron 1912-1996 was an innovative and genre defying author of children's fiction and children's literature criticism. From her beginnings as a librarian Cameron went on to become a prominent and respected voice in children's literature writing one of the most beloved children's science fiction novels of all time *The Wonderful Flight to the Mushroom Planet* and later winning the National Book Award for her time fantasy *The Court of the Stone Children*. In addition Eleanor Cameron played an often vocal role in critical debates about children's literature. She was one of the first authors to take up literary criticism of children's novels and published two influential books of criticism including *The Green and Burning Tree*. One of Cameron's most notable acts of criticism came in 1973 when she wrote a scathing critique of Roald Dahl's *Charlie and the Chocolate Factory*. Dahl responded in kind and the result was a fiery imbroglio within the pages of the *Horn Book Magazine*. Yet despite her many accomplishments most of Cameron's books went out of print by the end of her life and her star faded. This biography aims to reinsert Cameron into the conversation by taking an in depth look at her tumultuous early life in Ohio and California her unforgettably forceful personality and criticism and her graceful heartfelt novels. The biography includes detailed analysis of the creative process behind each of her published works and how Cameron's feminism environmentalism and strong sense of ethics are reflected in and represented by her writings. Drawn from over twenty interviews thousands of letters and several unpublished manuscripts in her personal papers Eleanor Cameron is a tour of the most exciting and creative periods of American children's literature through the experience of one of its valiant
