Something Funny:

A Philosophy of Humour Alan Roberts, 2019-04-13 Humour is a funny thing everyone knows it but no one knows what it is This book addresses the question What is humour by first untangling the definitions of humour amusement and funniness before then providing a new theory of humour which draws upon recent research in philosophy psychology linguistics and neuroscience The theory is built up without assuming any prior knowledge and illustrated through humorous examples which are both entertaining and educational for anyone curious about what makes things funny The book is then an accessible illumination of joking matters from dinner tables to online platforms to comedy clubs Phillips' Treasury of Humorous Quotations Bob Phillips, 2015-01-12 Phillips Treasury of Humorous Quotations is a catalog of more than 1 700 famous and not so famous sayings on life This book is designed to be a ready reference for seminar and sermon preparation and it s just plain entertaining Inside you ll find entirely new material Bob draws from a variety of resources throughout history that are sure to give writers educators ministers and public speakers the perfect quote for their speech or paper *Deep Venture* Gary Penley, 2011-10-26 A U S Navy submariner s account of his adventurous life in service beneath the waves Beginning on a cattle ranch in Colorado this memoir follows a young sailor on his voyage around the world After enlisting in the U S Navy in 1960 and completing the Nuclear Power School program Gary Penley embarks on a series of adventures often at risk of his life while serving on a submarine as a power plant operator During his seven years with the navy Penley and his shipmates encounter several frightening situations While on submerged patrol in the Mediterranean Sea his submarine the USS Hamilton strikes a heavy object which tears a large hole in the ballast tank and threatens to sink the submarine Later they ride out a ferocious storm in the Arctic Circle that nearly submerges the vessel Another harrowing experience occurs when the sailors while on a top secret mission in the Mediterranean during the Six Day War are attacked by unknown enemy ships and barely escape unscathed Throughout his expeditions Penley stops in such countries as Spain Scotland Italy and Japan In this captivating memoir he recounts the coping skills necessary to live in a confined space for extended patrols while facing constant danger often resulting in hilarious scenarios that only wild submarine sailors could conjure He also provides a detailed description of the submarine and explains how the machines operate Written in a candid tone this memoir carries the reader along for the epic ride Praise for Deep Venture Penley uses his naval experience and considerable talent as a storyteller to write a humorous and totally engaging account of life beneath the sea Against a backdrop of Cold War nuclear deterrence and the ever present personal danger faced by submariners he takes us down the hatch into the claustrophobic confines of his submarine and life among an odd collection of sailors willing to endure the hardship of being submerged and incommunicado for months at a time A unique and highly entertaining story Michael Archer author of A Patch of Ground Khe Sanh Remembered Clear and lucid writing immediately grips the reader as Penley explores the tension fear humor and adventure of navy and submarine life enriched with a realism and accuracy that is often missing from such accounts This

story deserves a place on the bookshelf of anyone who reads and admires true stories of adventure at sea James Ennes

A Philosophical Exploration of the Humanities and Social Sciences Giorgio Baruchello, Ársæll Már Arnarsson, 2022-11-07 Humor has been praised by philosophers and poets as a balm to soothe the sorrows that outrageous fortune's slings and arrows cause inevitably if not incessantly to each and every one of us In mundane life having a sense of humor is seen not only as a positive trait of character but as a social prerequisite without which a person's career and mating prospects are severely diminished if not annihilated However humor is much more than this and so much else In particular humor can accompany cruelty inform it sustain it and exemplify it Therefore in this book we provide a comprehensive reasoned exploration of the vast literature on the concepts of humor and cruelty as these have been tackled in Western philosophy humanities and social sciences especially psychology Also the apparent cacophony of extant interpretations of these two concepts is explained as the inevitable and even useful result of the polysemy inherent to all common sense concepts in line with the understanding of concepts developed by M Polanyi in the 20th century Thus a thorough nuanced grasp of their complex mutual relationship is established and many platitudes affecting today's received views and scholarship are cast aside Like Aristotle and Dewey Arnarsson and Baruchello do not define their terms at the outset but instead they relentlessly pursue the meanings of two ordinary words that everyone vaguely understands to arrive at a critical insight into the concepts these words represent which are both disparate and interrelated Richard Marc Rubin President George Santayana Society

His Young Wife. A Novel Julie P. Smith, 2024-06-17 Reprint of the original first published in 1877

Thoughtless: Think Less, Be More William Sharkey, 2014-05 We as humans experience much stress and suffering yet we aren't really sure why this is so We guess that our stress and suffering comes from a lack of money security loving relationships a difficult childhood lack of religious faith because we suffer from depression or some other sort of chemical deficiency in the brain or a variety of other reasons But there is another explanation We suffer because we think too much We have stress because we are too attached to our thought Thoughtless will show you why thoughts are the reason behind the stress and suffering that is common to almost all humans and how to do something about it how to end it William illustrates how it is possible to allow joy and inner peace to fill your experience of life by becoming thoughtless
