Something Under the Bed Is Drooling* Bill Watterson, 1989-01 *The Calvin and Hobbes Collection. Something Under the Bed Is Drooling* Bill Watterson, 1998-10 **Something Under the Bed is Drooling** Bill Watterson, 1988-01-01 A collection of selected comic strips featuring Calvin and Hobbes Something Under the Bed Is Drooling: A Calvin and Hobbes Collectio , *Moths to the Flame* Gregory J. E. Rawlins, 1996 For two decades now I've been awaiting a book explaining computers and their social consequences to literate readers without using any unnecessary jargon or pedantry or math I wanted such a book to lend to all those friends who've pestered me about computers and to all the computer science students who've asked me about computers over the years I particularly wanted a book that I could buy for my father who's an accountant of the old school to explain something of the mysterious world I live in Gregory Rawlins who teaches artificial intelligence at Indiana University got tired of waiting for that book and decided to write it himself In *Moths to the Flame* he takes us on a humorous yet thought provoking tour of the world wrought by modern technology a technology he points out that is rooted deep inside the military a technology that when applied to everyday life may have startling results Unlike space technology today's technological race won't simply bring us Tang flavored Velcro Rawlins educates by entertaining His stories and anecdotes enliven and surprise us while increasing our awareness of technology itself as a player in the political and commercial climate of our times In our headlong rush toward networked humanity Rawlins raises serious concerns about our future jobs and our future wars we can figure out what kind of job to get today if we know where technology is taking us tomorrow The book's first four chapters explore the worlds of privacy virtual reality publishing and computer networks while the last four focus on social issues such as warfare jobs computer catastrophes and the future itself Throughout unusual eye opening analogies and historical comparisons from Egyptian hieroglyphics to the sewing machine to the codebreakers of World War II give us a context for the computer age showing how new technologies have always bred intertwined hope and resistance Provocative yet balanced and sophisticated *Moths to the Flame* is an indispensable guidebook to the future a Baedeker for the Brave New World A Bradford Book **Whispers from the Dark Side** Harold Myra, 2020-07-08 *Whispers from the Dark Side* a devilish tale of seduction and grace captures chilling glimpses of unseen beings tempting a young man and woman to embrace evil plans Like C S Lewis's *Screwtape* with lively dialogue it reveals subtle and powerful dynamics driving our turbulent culture **Picturebooks** Evelyn Arizpe, Maureen Farrell, Julie McAdam, 2014-10-14 The picturebook is now recognized as a sophisticated art form that has provided a space for some of the most exciting innovations in the field of children's literature This book brings together the work of expert scholars from the UK the USA and Europe to present original theoretical perspectives and new research on picturebooks and their readers The authors draw on a variety of disciplines such as art and cultural history semiotics philosophy cultural geography visual

literacy education and literary theory in order to revisit the question of what a picturebook is and how the best authors and illustrators meet and exceed artistic narrative and cultural expectations The book looks at the socio historical conditions of different times and countries in which a range of picturebooks have been created pointing out variations but also highlighting commonalities It also discusses what the stretching of borders may mean for new generations of readers and what contemporary children themselves have to say about picturebooks This book was originally published as a special issue of the *New Review of Children's Literature and Librarianship*
