*Something's Alive on the Titanic* Robert J. Serling, 2013-06-16 They say that curiosity killed the cat and that greed damns your soul and seldom have these sayings been more terrifyingly true than in one of the greatest horror stories of our times Robert J Serling's bestselling *Something's Alive on the Titanic* Ten years before the official discovery in 1985 of the Titanic in its watery grave by Dr Robert Ballard a code breaker Derek Montague fixes on a reference in the Titanic's manifest to Sovereign Metals Ltd 34 cases nails screws and bolts Montague knows that Sovereign Metals operations centered on smuggling and what they usually smuggled was gold So in his mind at least the Titanic was probably carrying 34 cases of gold bullion when it went down in 1912 34 cases that are still lying there for the taking by the first people smart enough and brave enough to retrieve them from a probable depth of a daunting 12 000 feet under the sea And so an expedition is launched with mixed motives to be the first people to discover the Titanic and understand what really happened on that fateful voyage and to be the only people to profit from the shadowy riches that were buried with her And so with reverence to the actual findings of Dr Robert Ballard's expedition and the language and attitudes of the times this heroic ghostly and tragic tale begins
