Somewhere From West Side Story :

Leonard Bernstein: West Side Story Nigel Simeone, 2017-07-05 One of the Broadway musicals that can genuinely claim to have transformed the genre West Side Story has been featured in many books on Broadway but it has yet to be the focus of a scholarly monograph Nigel Simeone begins by exploring the long process of creating West Side Story including a discussion of Bernstein's sketches early drafts of the score and script as well as cut songs The core of the book is a commentary on the music itself West Side Story is one of the very few Broadway musicals for which there is a complete published orchestral score as well as two different editions of the piano vocal score The survival of the original copied orchestral score and the reminiscences of Sid Ramin and Irwin Kostal reveal details of the orchestration process and the extent to which Bernstein was involved in this Simeone's commentary considers musical characteristics and compositional techniques used to mirror the drama for example the various uses of the tritone motivic development the use and reinvention of Broadway and other conventions the creation of dramatic continuity in the score through the use of motifs and other devices the unusual degree of dissonance and rhythmic complexity at least for the time and the integration of Latin American dance forms Mambo Huapango and so on Simeone also considers the reception of West Side Story in the contemporary press The stir the show caused included the response that it was the angular edgy score that made it a remarkable achievement Not all reviews were uncritical Finally the book looks in detail at the making of the original Broadway cast recording made in just one day included on the accompanying downloadable resources

The Star at the End of the River Paul Vincent, 2011-04-20 From an early age author Paul Vincent has looked forward with joyful anticipation to sunsets and oncoming darkness an attitude that appears to be counter to the scriptural counsels of his own faith community In *The Star at the End of the River* Vincent shares his important life experiences in order to describe a transformative spirituality of the night Bringing to bear his forty years experience as an amateur astronomer the author shows how sustained night sky observation enhances the human receptivity to transcendent departure Of the many treasures of the heavens Vincent finds particular solace in a star he has never seen which for that very reason he regards as the most apt symbol of the human hope for eternal joy *The Star at the End of the River* proposes a new kind of spiritual journey an ascent not of a mountain as in the traditional imagery but of an inclined plane Vincent invites his readers to become contemplatives of the ordinary and to discover the mystical power of such commonplace objects and occurrences as road signs supermarket aisles interior stairways gooseflesh and penmanship
