Falling Friends Martin Staniland,2019-04-08 For U S policymakers the collapse of governments headed by good friends of the United States has been over the past thirty years a repeated cause of alarm and embarrassment Such crises of succession have implications not only for U S foreign policy but also for recent and forthcoming changes in Eastern Europe and the Soviet Union Martin Staniland draws together extended case studies illustrating regime change and shows how each crisis resembles the others in its phases of development from the status quo to the attack phase and ultimately to negotiating the succession In the process students get to know the history culture and personalities involved from Batista and Eisenhower to Marcos and the Reagan administration As in every volume in the Case Studies in International Affairs series this volume opens with an introduction that taps into current theoretical debates in international relations while giving students a framework for understanding and comparing the cases that follow Individual introductions to each case place the study in context and discussion questions and exercises are strategically interjected throughout to encourage students to explore the issues and to assess the choices facing policymakers **A Bat Man in the Tropics** Theodore

economic growth and state building than for its personalistic and dictatorial features Using a wide range of sources in Nicaraguan archives Walter focuses on institutional and structural developments to explain how Somoza gained and consolidated power According to Walter Somoza preferred to resolve conflicts by political means rather than by outright coercion Specifically he built his government on agreements negotiated with the country's principal political actors labor groups and business organizations Nicaragua's two traditional parties one conservative and the other liberal were included in elections thus giving the appearance of political pluralism Partly as a result the opposition was forced to become increasingly radical says Walter eventually in 1979 Nicaragua produced the only successful revolution in Central America and the first in all of Latin America since Cuba's
