Son In Homing Flight:

Son in Homing Flight Charles J. Frary, 2002-01-20 A boy on a bus that s taking him back to the small town and the father he d run away from I m queer he d told his father More than enough to seal his fate in the house he d been raised in The city will be better he d thought No not better After three weeks definitely not better only different And strange Strange as the three men he d met there complicated puzzles he hadn t come within a mile of solving Now if you can t solve them or the city either where else do you go But back To what To square one was it Son in Homing Flight a continuation of a story begun in Mr Frary's previous book An Omen in the Bone is an innovative exploration of the mind of someone in transit on a two hours and change shuttle between the past and the present between what a scared and confused boy thought he knew about the power of a father's flawed love and what he still had to learn In a city and all by himself **Father Found** Charles Frary, 2003 You re a man who listened to your teenage son tell you how he s what you ve never been able to admit about yourself gueer When you punished him with silence he ran away finally to the distant city You followed desperate to find him Only what you found instead was another boy who saw through you right off and proceeded to act upon it Now you can t seem to forget what that boy did Can t seem to get him out of your head Or your runaway son either Every waking hour they both haunt you Till you finally take off for the city again determined to have the one if you can t get back the other In Father Found the latest installment of a cycle that already includes An Omen in the Bone and Son in Homing Flight Mr Frary explores the troubled soul of a man fueled by guilt over a son he might have lost forever and over his desire for a difficult young stranger who just might hold the key to a way out *Intermezzo* Charles Frary, 2006-09 Love conquers all people say But when love goes wrong it can wound and sometimes the wound just will not heal A man returns to his old hometown seeking peace But an unexpected sexual encounter with a teenage boy sends him back to the city he d fled Yet he still continues to be haunted by what occurred there Memories arise memories long since buried though never deep enough of another hometown boy who d been his first love It was love of a kind heated and erratic as the boyish blood behind it that must leave its mark Just how much of a mark the man is about to discover during a snowy winter s night of rooting through old things and even older regrets Intermezzo the continuation of In Hospital a story that appeared in Mr Frary's inaugural collection An Omen in the Bone further explores a theme central to both works What happens to a life when the past refuses The Son Tay Raid John Gargus, 2010 In May 1970 aerial photographs revealed what U S military to stay past intelligence believed was a POW camp near the town of Son Tay twenty three miles west of North Vietnam's capital city When American officials decided the prisoners were attempting to send signals they set in motion a daring plan to rescue the more than sixty airmen thought to be held captive On November 20 a joint group of volunteers from U S Army Green Berets and U S Air Force Special Operations Forces perfectly executed the raid only to find the prisoners quarters the POWs had been moved to a different location Initially the Son Tay raid was a devastating disappointment to the men who risked their

lives to carry it out Many vocal critics labeled it as a spectacular failure of our nation s intelligence network However subsequent events proved that the audacity of the rescue attempt stunned the North Vietnamese who implemented immediate changes in the treatment of their captives. The operation also restored the prisoners faith that their nation had not forgotten them John Gargus not only participated in the planning phase of the Son Tay rescue but also flew as a lead navigator for the strike force This revised edition incorporates the most recent information from raid participants and also includes recent translations of North Vietnamese perspectives No previous account of this top secret action has given such a full account or such insight into both the execution and the aftermath of Son Tay The Flight of the Century Thomas Kessner, 2010-07-20 In late May 1927 an inexperienced and unassuming 25 year old Air Mail pilot from rural Minnesota stunned the world by making the first non stop transatlantic flight A spectacular feat of individual daring and collective technological accomplishment Charles Lindbergh's flight from New York to Paris ushered in the modern age of commercial aviation In The Flight of the Century Thomas Kessner takes a fresh look at one of America's greatest moments explaining how what was essentially a publicity stunt became a turning point in history Kessner vividly recreates the flight itself and the euphoric reaction to it on both sides of the Atlantic and argues that Lindbergh's amazing feat occurred just when the world still struggling with the disillusionment of WWI desperately needed a hero to restore a sense of optimism and innocence Kessner also shows how new forms of mass media made Lindbergh into the most famous international celebrity of his time casting him in the role of a humble yet dashing American hero of rural origins and traditional values Much has been made of Lindbergh's personal integrity and his refusal to cash in on his fame but Kessner reveals that Lindbergh was closely allied with and managed by a group of powerful businessmen Harry Guggenheim Dwight Morrow and Henry Breckenridge chief among them who sought to exploit aviation for mass transport and massive profits Their efforts paid off as commercial air traffic soared from 6 000 passengers in 1926 to 173 000 passengers in 1929 Kessner's book is the first to fully explore Lindbergh's central role in promoting the airline industry the rise of which has influenced everything from where we live to Farmer's Son Who Dared to Fly HARBANS SINGH SAHOTA, 2020-11-10 how we wage war and do business Autobiography of an Air Force Officer Harbans my friend I congratulate you for your fine effort I am confident that all air warriors the serving the aspiring the veterans as well as admirers of warriors will enjoy partaking of your remarkable journey through life It is educative inspirational and motivational It will be a most welcome addition to the slowly but steadily growing list of biographical works by veteran air warriors Anil Yashwant Tipnis Former Chief of the Indian Air Force Harbans Singh Sahota begins his autobiography narrating to us fragments of his life s journey by taking us through every stage of his life his childhood back in the village of Garhdiwala full of harmless playfulness surrounded by the love of his family his boyhood when days seem simpler while helping father find fodder for the Johri or while listening to Dadi Ma s Gurbani or learning the team spirit in the game of Annar Choochi and Gulli Danda and his teenage when discipline goal and academic

Flight ,1918 Home in May (Storycuts) Su Tong,2011-11-17 Yongshan is taking her son back to Licheng to visit relatives and to see the town where she grew up But when they get there all she could find were desolate houses Even the people on the street seemed not to recognise her But then in the rubble of her old neighbourhood Yongshan finds something to grab hold of a memento of the past Part of the Storycuts series this short story was previously published in the collection Madwoman on the Bridge A Son of Perdition Fergus Hume,2020-08-01 Reproduction of the original A Son of Perdition by Fergus Hume Orientation in Birds P. Berthold,2013-03-08 If it is true that science proceeds from a romantic through a scientific to a technological stage then research on bird orientation is certainly on its move from its first to its second grade and recent developments in radiotelemetry and satellite tracking of migrating birds might already indicate the advent of the

third stage At this juncture Orientation in Birds is a timely account Even though the study of animal migration in general and bird navigation in particular has produced a literature of impressive proportions the threads provided by the plethora of research papers review articles and symposiums volumes have not yet been knitted into a theoretical fabric This is partly due to our still incomplete understanding of fundamen tal topics in avian navigation The answer to the most intriguing question of how a bird displaced to unknown territory finds its way back home is as obscure now as it was a few decades ago Whether and how birds solve this problem by using far ranging grid maps or more local familiar area maps as has been proposed off and on is still a matter of heated debates These debates frequently center around provocative hypotheses let alone the question about the physical topographic magnetic infrasonic olfactory parameters which might constitute such maps
