The Dinosaur Fund:

The Dinosaur Fund Vartanig G. Vartan, 1972-01-01 **The Dinosaur Artist** Paige Williams, 2025-04-08 This New York Times Notable Book recounts the true story of a Florida man's attempt to sell a dinosaur skeleton from Mongolia. In 2012 a New York auction catalogue boasted an unusual offering: a superb Tyrannosaurus skeleton. In fact, Lot 49135 consisted of a nearly complete T. bataar, a close cousin to the most famous animal that ever lived. The fossils, now on display in a Manhattan event space, had been unearthed in Mongolia more than six thousand miles away. At eight feet high and twenty-four feet long, the specimen was spectacular, and when the gavel sounded, the winning bid was over 1 million. Eric Prokopi, a thirty-eight-year-old Floridian, was the man who had brought this extraordinary skeleton to market. A onetime swimmer who spent his teenage years diving for shark teeth, Prokopi's singular obsession with fossils fueled a thriving business hunting, preparing, and selling specimens to clients ranging from natural history museums to avid private collectors like actor Leonardo DiCaprio. But as the T. bataar went to auction, a network of paleontologists alerted the government of Mongolia to the eye-catching lot, resulting in an international custody battle and unraveling Prokopi's world. Paige Williams's *The Dinosaur Artist* is a stunning work of narrative journalism about humans' relationship with natural history and a seemingly intractable conflict between science and commerce. A story that stretches from Florida's Land O' Lakes to the Gobi Desert, it illuminates the history of fossil collecting, a murky, sometimes risky business populated by eccentrics and obsessives where the lines between poacher and hunter, collector and smuggler, enthusiast and opportunist can easily blur.

Wyoming's Dinosaur Discoveries The Big Horn Basin Foundation, 2015 Wyoming is home to some of the world's most famous dinosaurs. As early as 1872, dinosaurs were excavated, placed on railcars, and shipped east. For the past 140 years, paleontologists have scoured Wyoming to excavate tens of thousands of dinosaur bones, now displayed internationally. It was not until 1961 that a dinosaur from Wyoming was mounted and placed on display at the University of Wyoming's Geological Museum in Laramie.

The Shortest History of the Dinosaurs Riley Black, 2025-06-10 A highlight reel history of the dinosaurs, told like never before, bringing their world to vivid life in a paleontological detective story. *The Shortest History of the Dinosaurs* tells the 230-million-year epic of these staggeringly fascinating prehistoric creatures, covering their small beginnings, spectacular golden periods, and stunning evolutionary success before an unthinkable asteroid event brought everything to a screeching halt. But this history digs deeper, using numerous recent fossil discoveries and fresh understandings of genetics and evolution to show how we've gleaned so much about a long-lost world from mere fragments of fossil. Marshaling the evidence, award-winning author Riley Black reveals the startling relationships that dinosaurs shared with one another, the land they lived on, and other animal species. By conjuring a more complete picture of Earth in the age of the dinosaurs, she shows us how these massive monsters owe their rise to luck as much as to their cunning, and the many surprising ways they left an indelible mark on their dramatically changing world. *The Shortest History* books deliver thousands of years of history in one riveting, fast-paced read.

The Dinosaur Quarry United States. National Park Service, John Maxwell Good, Theodore Elmer White, Gilbert F.
