The Disappearing Airplane:

The Vanishing of Flight MH370 Richard Quest, 2016-03-08 CNN Aviation Correspondent Richard Quest offers a gripping and definitive account of the disappearance of Malaysian Airline Flight MH370 in March 2014. On March 8, 2014, Malaysian Airlines Flight MH370 disappeared with barely a trace, carrying 239 people on board, seemingly vanishing into the dark night. The airplane's whereabouts and fate would quickly become one of the biggest aviation mysteries of our time. Richard Quest, CNN's Aviation Correspondent, was one of the leading journalists covering the story. In a coincidence, Quest had interviewed one of the two pilots a few weeks before the disappearance. It is here that he begins his gripping account of those tense weeks in March, presenting a fascinating chronicle of an international search effort which, despite years of searching and tens of millions of dollars spent, has failed to find the plane. Quest dissects what happened in the hours following the plane's disappearance and chronicles the days and weeks of searching, which led to nothing but increasing despair. He takes apart the varying responses from authorities and the discrepancies in reports, the wide range of theories, the startling fact that the plane actually turned around and flew in the opposite direction, and what solutions the aviation industry must now implement to ensure it never happens again. What emerges is a riveting chronicle of a tragedy that continues to baffle everyone from aviation experts to satellite engineers to politicians, and which to this day worries the traveling public that it could happen again. The Disappearing Airplane Bill North, 2001-06-19 Deep in the Idaho wilderness, student pilot Rob Silver makes an emergency landing and discovers a deadly secret. Can Rob and his friends Jennifer and Ryan solve the mystery in time to prevent disaster?

Malaysia Airlines Flight 370 David Soucie, 2015-02-17 On March 8, 2014, Malaysia Airlines Flight 370 loaded 239 people on board and took off for what should have been a six-hour flight. It never made it, and it's still missing. It's been a year since Malaysia Airlines Flight 370 vanished, and there's still no sign of the aircraft, its passengers, or its crew, nor confirmation of what happened or where the aircraft resides. In this gripping investigation of the events that led to the plane's disappearance and why they could happen again, CNN aviation analyst David Soucie exposes the flaws in the aviation industry, shares what needs to be done so a plane doesn't go missing again, and uses a Bayesian analysis model to reveal what most likely happened on board the plane that led to its downfall. Comprehensive in scope, personal, and empathetic in voice, Soucie draws on his thirty years of experience as an accident investigator working with the Federal Aviation Administration. He allows you to put the wild speculation about the plane's disappearance aside and assess the facts through the eyes of an experienced accident investigator.

The Disappearing Act: The Impossible Case of MH370 Florence de Changy, 2021-02-04 People often say that non-fiction books read like fast-moving thrillers, but this one genuinely does. This is a splendid book and highly recommended. Daily Mail. A remarkable piece of investigative journalism, it turns one of the most pervasive and troubling mysteries of recent memory into a gripping read.

Someone Is Hiding Something Richard Belzer, George Noory, David Wayne, 2015-02-17 A year after the disappearance and commencement of the international search for Malaysia

Airlines Flight 370 no sign of the plane has been found no debris no bodies no sign of the much talked about black box Richard Belzer George Noory and David Wayne want to know why Scrutinizing the theories the media and politicians claim are the most likely reasons the plane crashed Belzer Noory and Wayne argue that if a year after a huge Boeing 777 has gone missing and there is still no sign of it whatsoever it is time to think outside the box The public needs to stop being misled If a plane and its passengers went missing once what is to stop it from happening again Some of the theories the authors consider seem implausible on the surface but the thorough research they've done and the continual failure of politicians aviation authorities and military members around the world to give any indication they're wrong makes their arguments as good if not better than the more widely shared ones The title of this thought provoking volume Someone is Hiding Something is a line spoken by former Malaysian Prime Minister Mahathir Mohamad perhaps the only government official to publicly acknowledge the true reason that neither Flight 370 nor the 239 people onboard have been found

Ufos, Teleportation, and the Mysterious Disappearance of Malaysian Airlines Flight #370 Robert Iturralde, 2021-10-13 This book traces and explains the mysterious disappearance of Flight 370 from the departure from Kuala Lumpur airport to the sudden vanishing in the Indian Ocean Also analyzed the different theories about the disappearance of Flight 370 Further I mention different cases of planes ships and people that had been teleported throughout history

The Vanishing of Flight MH370 Richard Quest, 2016 CNN Aviation Correspondent Richard Quest offers a gripping and definitive account of the disappearance of Malaysian Airline Flight MH370 in March 2014 On March 8 2014 Malaysian Airlines Flight MH370 disappeared with barely a trace carrying 239 people on board seemingly vanishing into the dark night The airplane's whereabouts and fate would quickly become one of the biggest aviation mysteries of our time Richard Quest CNN's Aviation Correspondent was one of the leading journalists covering the story In a coincidence Quest had interviewed one of the two pilots a few weeks before the disappearance It is here that he begins his gripping account of those tense weeks in March presenting a fascinating chronicle of an international search effort which despite years of searching and tens of millions of dollars spent has failed to find the plane Quest dissects what happened in the hours following the plane's disappearance and chronicles the days and weeks of searching which led to nothing but increasing despair He takes apart the varying responses from authorities and the discrepancies in reports the wide range of theories the startling fact that the plane actually turned around and flew in the opposite direction and what solutions the aviation industry must now implement to ensure it never happens again What emerges is a riveting chronicle of a tragedy that continues to baffle everyone from aviation experts to satellite engineers to politicians and which to this day worries the traveling public that it could happen again INCLUDES PHOTOS

The Dragon, the Eagle, and the Disappearance of Mh370 Michael La Vasani, Hamilton James, 2020-02 Kelly Rostam ex airline pilot cum private detective is contacted by a strange request to prove that a Malaysian Chinese had nothing to do with the disappearance of Malaysia Airlines flight MH370 To prove a negative seems unusual to Rostam who

refuses to take the case Nevertheless a red flag has been raised and Rostam's innate curiosity coupled with his knowledge about the plane's operation cause him to dig deeper and draw the attention of the American CIA The gripping novel is loosely based on the facts and discoveries made by Michael La Vasani as he investigated the gaps in the media reports and press releases which have often been contradictory It deals with evidence of a vast cover up by the Chinese government to disguise the real reason lives were sacrificed on that vanished flight *The Secret of the Seventh Arc: The Story About the Disappearance of the Malaysian Flight MH-370* Milos Jesensky, Stanislaw Bednarz, Robert Lesniakiewicz, 2021-01-15 It is an unheard of case A huge flying machine measuring 60 x 64 m and weighing 300 tons disappears without a trace in the gloom of the Malayan night The search for six years is still fruitless and there is not even a fixed location for a possible catastrophe And it would seem that it was all happening in a world where satellites and sensors are able to hear a mouse sneeze from thousands of kilometers away and despite all this the waters of the Indian Ocean or any other sea were forever closed over MH 370 After all we do not even know where the plane flew after the pilots turned off its transponder One can only make assumptions and hypotheses It is incomprehensible for us maybe all this happened in an area bristling with radar stations and other air traffic detection devices And nobody has seen anything nobody knows anything Hundreds of ships pass daily in waters with increased sea traffic And yet no one knows what happened We wanted to present the reader with the development of the situation and new searches and new hopes for finding missing people and the airplane Some are factual some are quite fantastic
