The Dispossessed Living With Multiple Chemical Sensitivities

Sheila Mooney

The Dispossessed Living With Multiple Chemical Sensitivities:

The Dispossessed, 1998 Profiles a variety of people in Arizona and New Mexico who suffer from environmental illnesses and chemical sensitivity Understanding Multiple Chemical Sensitivity Els Valkenburg, 2010-01-13 This personal view of multiple chemical sensitivity and environmental illness is supported by research In a question and answer format the effects of exposure to perfume smoke air fresheners cleaning products exhaust and other air contaminants are examined and linked to symptoms such as headaches allergies asthma and fatigue The book contains additional testimony and reports from 37 sufferers as well as listings of resources and related scientific articles **Biopolitics, Necropolitics, Cosmopolitics** C.L. Quinan, Kathrin Thiele, 2021-03-25 The concepts of biopolitics and necropolitics have increasingly gained scholarly attention particularly in light of today's urgent and troubling issues that mark some lives as more or less worthy than others including the migration crisis rise of populism on a global scale homonationalist practices and state sanctioned targeting of gender sexual racial and ethnic others This book aims to nuance this conversation by emphasising feminist and queer investments and interventions and by adding the analytical lens of cosmopolitics to ongoing debates around life living and death dying in the current political climate In this way we move forward toward envisioning feminist and queer futures that rethink categories such as human and subjectivity based on classical modern premises Informed by feminist queer studies postcolonial theory cultural analysis and critical posthumanism Biopolitics Necropolitics Cosmopolitics engages with longstanding questions of biopolitics and necropolitics in an era of neoliberalism and late capitalism but does so by urging for a more inclusive and less violent cosmopolitical framework Taking account of these global dynamics that are shaped by asymmetrical power relations this fruitful posthumanist and post decolonial approach allows for visions of transformation of the matrix of inclusion/exclusion into feminist queer futures that work towards planetary social justice This book is a significant new contribution to feminist and queer philosophy and politics and will be of interest to academics researchers and advanced students of gender studies postcolonial studies sociology philosophy politics and law The chapters in this book were originally published as a special issue of the Journal of Gender Studies *Living in the Borderland* Jerome S. Bernstein, 2006-02-01 *Living in the Borderland* addresses the evolution of Western consciousness and describes the emergence of the Borderland a spectrum of reality that is beyond the rational yet is palpable to an increasing number of individuals Building on Jungian theory Jerome Bernstein argues that a greater openness to transrational reality experienced by Borderland personalities allows new possibilities for understanding and healing confounding clinical and developmental enigmas There are many people whose experiences of reality is outside the mainstream of Western culture often they see themselves as abnormal because they have no articulated frame of reference for their experience The concept of the Borderland personality explains much of their experience In three sections this book examines the psychological and clinical implications of the evolution of consciousness and looks at how the new Borderland consciousness bridges the mind/body

divide Subjects covered include Genesis Evolution of the Western Ego Transrational Data in a Western Clinical Context Synchronicity Trauma and Borderland Transcendence Environmental Illness Complex Integration of Navajo and Western healing approaches for Borderland Personalities Living in the Borderland challenges the standard clinical model which views normality as an absence of pathology and which equates normality with the rational Jerome S Bernstein describes how psychotherapy itself often contributes to the alienation of Borderland personalities by misperceiving the difference between the pathological and the sacred The case studies included illustrate the potential this has for causing serious psychic and emotional damage to the patient This challenge to the orthodoxies and complacencies of Western medicine s concept of pathology will interest Jungian Analysts Psychotherapists Psychiatrists and other physicians as well as educators of children Jerome S Bernstein is a Jungian Analyst in private practice in Santa Fe New Mexico A Vexation of the Spirit Sheila Mooney,2006-11 Sheila W Mooney has written a book about the effects of chronic illness on the mind and spirit She has eight chronic illnesses and talks about her own experiences with refreshing candor There s no self pity here just an honest account of her illnesses and what she has come to know about mind and spirit You ll read about her growing up in a small farming village in Maine then on to her own family and ultimately several psychiatric hospitalizations After losing her career to Chronic Fatigue Immune Dysfunction Syndrome she faced a great change in her life Chronic illness brings a new life and suddenly leaves an old one behind One may look normal but on the inside is suffering and pain The great accumulation of suffering includes Grief Isolation and Loneliness Anxiety Depression Economic Stress Pain After the author chronicles her story she has some basic suggestions to help those who are suffering invisibly She intertwines two stories her private subjective thoughts with a concise presentation of ideas She writes with compassion and imagination This book is a must read for those and their caretakers facing chronic illness such as Chronic Fatigue Syndrome arthritis and brain injury

Feminist, Queer, Crip Alison Kafer,2013-05-16 A critical analysis of how social and academic discourses treat disability and how they affect disabled lives This book breathes the poetics of disability life a life that is consistently under threat in a way that is complex clear highly accessible and grounded in the politics of everyday life For this reason it may not be just that this book is highly teachable which it is this is a book that must be included in any disability studies queer theory and feminist theory curricula Canadian Journal of Disability Studies In Feminist Queer Crip Alison Kafer imagines a different future for disability and disabled bodies Challenging the ways in which ideas about the future and time have been deployed in the service of compulsory able bodiedness and able mindedness Kafer rejects the idea of disability as a pre determined limit She juxtaposes theories movements and identities such as environmental justice reproductive justice cyborg theory transgender politics and disability that are typically discussed in isolation and envisions new possibilities for crip futures and feminist queer crip alliances This bold book goes against the grain of normalization and promotes a political framework for a more just world Feminist Queer Crip makes significant contributions to our understanding of how disability works in the

world contributions that no other academic book in the recently emergent field of interdisciplinary disability studies has done so thoroughly Journal of Literary and Cultural Disability Studies Ambitious doggedly interdisciplinary and accessibly written It retains political sharpness while remaining determinedly optimistic about queer crip futures QED Kafer interrogates the ableist assumptions that pervade social and academic discourses and offers a critique of how these assumptions are put into practice in ways that directly affect the lives of people with disabilities This is an original and comprehensive work that brings together disability studies feminist theory and queer theory Licia Carlson Providence College *Bodily Natures* Stacy Alaimo, 2010-10-25 How do we understand the agency and significance of material forces and their interface with human bodies What does it mean to be human in these times with bodies that are inextricably interconnected with our physical world Bodily Natures considers these questions by grappling with powerful and pervasive material forces and their increasingly harmful effects on the human body Drawing on feminist theory environmental studies and the sciences Stacy Alaimo focuses on trans corporeality or movement across bodies and nature which has profoundly altered our sense of self By looking at a broad range of creative and philosophical writings Alaimo illuminates how science politics and culture collide while considering the closeness of the human body to the environment **Environmental Health Perspectives**, 1993

Interrogating the Anthropocene Jan Jagodzinski, 2018-05-09 This volume weaves together a variety of perspectives aimed at confronting a spectrum of ethico political global challenges arising in the Anthropocene which affect the future of life on planet earth In this book the authors offer a multi faceted approach to address the consequences of its imaginary and projective directions The chapters span the disciplines of political economy cybernetics environmentalism bio science psychoanalysis bioacoustics documentary film installation art geoperformativity and glitch aesthetics The first section attempts to flesh out new aspects of current debates Questions over the Capitalocene are explored via confluences of class and climate revisiting the eco Marxist analysis of capitalism and the financial system that thrives on debt The second section explores the imaginary narratives that raise questions regarding non human involvement The third section addresses geoartistry the counter artistic responses to the specularization of climate disasters questioning eco documentaries and what a post anthropocentric art might look like The last section addresses the pedagogical response to the Anthropocene

Anthropocene Feminism Richard Grusin, 2017-03-21 What does feminism have to say to the Anthropocene How does the concept of the Anthropocene impact feminism This book is a daring and provocative response to the masculinist and technonormative approach to the Anthropocene so often taken by technoscientists artists humanists and social scientists By coining and for the first time fully exploring the concept of anthropocene feminism it highlights the alternatives feminism and queer theory can offer for thinking about the Anthropocene Feminist theory has long been concerned with the anthropogenic impact of humans particularly men on nature Consequently the contributors to this volume explore not only what current interest in the Anthropocene might mean for feminism but also what it is that feminist theory can contribute to

technoscientific understandings of the Anthropocene With essays from prominent environmental and feminist scholars on topics ranging from Hawaiian poetry to Foucault to shelled creatures to hypomodernity to posthuman feminism this book highlights both why we need an anthropocene feminism and why thinking about the Anthropocene must come from feminism
