Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high-quality modern editions that are true to the original work. *A Guide to Archives and Manuscript Collections in the History of Chemistry and Chemical Technology* Colleen Wickey, Center for History of Chemistry (U.S.), 1987 A thorough inventory of research resources in American repositories, the Guide lists collections in the history of chemistry and chemical engineering, the chemical and pharmaceutical industries, and a number of related chemical process industries and businesses, from personal and professional papers of chemical scientists and engineers to business records of the chemical process industries. *The Story of Early Chemistry* John Maxson Stillman, 1924 *A History of Chemistry from the Earliest Times Till the Present Day* James Campbell Brown, 1913 *Notes on the Early Literature of Chemistry ...* Henry Carrington Bolton, 1875 *A Short History of Chemistry* Francis Preston Venable, 1894

The Czech Manuscripts David L. Cooper, 2023-10-15 *The Czech Manuscripts* is dedicated to one of the most important literary forgeries on the model of Macpherson's Ossianic poetry. The Queen's Court and Green Mountain Manuscripts, discovered in 1817 and 1818, went on to play an outsized role in the Czech National Revival, functioning as founding texts of the national mythology and serving as sacred works in the long period when they were considered genuine. A successful literary forgery tells a lot about what a culture wants and needs at a particular moment. One fascinating aspect of this story is how a successful fake was able to function in an integral way as part of the Czech cultural revival of the nineteenth century, both because it played to expectations and nationalist values and because it met real cultural needs in many ways better than genuine historical literary works and artefacts. Also fascinating is the vainglorious Vclav Hanka, a prolific and dedicated forger who was likely the center of the conspiratorial ring that created the manuscripts and who went on as the librarian of the Czech National Museum to alter a number of others. David Cooper analyzes what made the Manuscripts a convincing imitation of their Serbian and Russian models. He looks at how translation shaped their composition and, at the benefit of examining them as pseudotranslations, investigates the quasi-religious rituals and commemorative practices that developed around them. *The Czech Manuscripts* brings the Czech experience into the broader developments of European history. **Proceedings of the Lyceum of Natural History in the City of New York** Lyceum of Natural History (New York, NY), 1874 *Proceedings of the Lyceum of Natural History in the City of New York* Anonymous, 2023-10-21 Reprint of the original, first published in 1873. *The History of Chemistry* Thomas Thomson, 1835
