Boda,2009-06-30 The biblical theological approach Boda takes in this work is canonical thematic tracing the presentation of the theology of sin and its remedy in the canonical form and shape of the Old Testament The hermeneutical foundations for this enterprise have been laid by others in past decades especially by Brevard Childs in his groundbreaking work But A Severe Mercy also reflects recent approaches to integrating biblical understanding with other methodologies in addition to Childs s Thus it enters the imaginative space of the ancient canon of the Old Testament in order to highlight the word views and literary shapes of the texts taken individually and as a whole collection For the literary shape of the individual texts it places the word views of the dominant expressions and images as well as various passages in the larger context of the biblical books in which they are found For the literary shape of the texts as a collection it identifies key subthemes and traces their development through the Old Testament canon The breadth of Boda s study is both challenging and courageous resulting in the first comprehensive examination of the topic in the 21st century *Nave's Index-digest of the Holy Scriptures* Orville James Nave,1900 *Fornander collection of Hawaiian antiquities and folk-lore ...* Abraham Fornander,1920 **The Princeton Theological Review** ,1913 Includes section Reviews of recent literature **The Hebrew monarchy: a commentary with a harmony of the parallel texts and extracts from the prophetic books.** Ed. by A.
