The Break-up of Yugoslavia and International Law Peter

Radan,2004-01-14 The demise of the former Yugoslavia was brought about by various secessionist movements seeking international recognition of statehood This book provides a critical analysis from an international law perspective of the break up of Yugoslavia Although international recognition was granted to the former Yugoslav republics of Slovenia Croatia Bosnia Hercegovina and Macedonia the claims of secessionist movements that sought a revision of existing internal federal borders were rejected The basis upon which the post secession international borders were accepted in international law involved novel applications of international law principles of self determination of peoples and uti possidetis This book traces the developments of these principles and the historical development of Yugoslavia s internal borders

Latin America Juan Manuel Pérez,2004 This is a general bibliography

on Latin America covering a wide variety of subjects from pre Columbian civilizations to Columbus to Castro to the foreign debt to pollution ect This work will not only be of use to the general casual reader on Latin America but also to the more specialized researcher The book contains over 800 topics with over 8 000 titles identified *RIB* ,1983 **American Doctoral Dissertations** ,1989 **Geographical Change and the Law of the Sea** Kate Purcell,2019-12-19 This book examines the implications of geographical change for maritime jurisdiction under the law of the sea In a multistranded intervention it challenges existing accounts of the consequences of climate related change for entitlement to maritime space maritime limits and international maritime boundaries It also casts new light on the question of whether a loss of habitable land and large scale population displacement will precipitate a loss of territorial sovereignty and the legal extinction of affected States This study of the legal significance of geographical change is grounded in an in depth study of the role of geography in the law of the sea As well as offering a new perspective on the pressing question of how climate change will affect maritime jurisdiction territorial sovereignty and statehood the book contributes to the scholarship on maritime delimitation and international boundaries generally on land and at sea It includes an analysis of the principle of intertemporal law that suggests a useful framework for considering questions of stability and change in international law more broadly This rigorous and original study will be of value to anyone concerned with the implications of climate related change for maritime jurisdiction territorial sovereignty and statehood Its broader analysis of the existing law and engagement with a range of doctrinal debates through the lens of the question of geographical change will be of interest to scholars and practitioners of the law of the sea the law of territory and the law relating to international boundaries Report of Robert C. Case Studies in Oceanography and Marine Affairs Joan Brown,2013-10-24 This is the last volume in the six volume Open University set Each volume is required by students as a relevant part of the Open University course but designed so that it can equally be used as an individual textbook This volume differs from the others in the series in that it does not draw specifically upon traditional scientific disciplines The first part of the book provides an historical review of the Law of the Sea culminating in the present day

situation The second part is devoted to two case studies covering not only the scientific aspects of a particular oceanographic environment but also the social political and legal consequences and implications of human interactions with that environment Each volume in this set is well laid out and copiously illustrated with full colour photographs Questions to help develop arguments can be found in the text with answers provided at the back Each chapter concludes with a summary to help consolidate understanding before proceeding with the next section
