The Great Movies IV Roger Ebert, 2020-03-04 Essays from the influential and beloved film critic No one has done as much as Ebert to connect the creators of movies with their consumers Richard Corliss Time Over more than four decades Roger Ebert built a reputation writing reviews for the Chicago Sun Times and later arguing onscreen with rival Chicago Tribune critic Gene Siskel and later Richard Roeper about the movies they loved and loathed But Ebert's wisdom went well beyond a mere thumbs up or thumbs down The Great Movies IV is the fourth and final collection of Roger Ebert's essays comprising sixty two reviews of films ranging from the silent era to the recent past From films like The Cabinet of Caligari and Viridiana that have been considered canonical for decades to movies only recently recognized as masterpieces to Superman The Big Lebowski and Pink Floyd The Wall the pieces gathered here demonstrate the critical acumen seen in Ebert's daily reviews and the more reflective and wide ranging considerations that the longer format allowed him to offer Also included are an insightful foreword by film critic Matt Zoller Seitz editor in chief of the official Roger Ebert website and a touching introduction by Chaz Ebert A fitting capstone to a truly remarkable career The Great Movies IV will introduce newcomers to some of the most exceptional movies ever made while revealing new insights to connoisseurs **Patrice**

The Psychology of Beauty Ellen Sinkman,2012-12-14 Beauty is often an invisible yet potent presence in clinical work The Psychology of Beauty Creation of a Beautiful Self by Ellen Sinkman LCSW addresses the vital importance of beauty its sources and manifestations in everyone s lives including psychotherapy patients The ability to be mesmerizingly beautiful and beautifully creative strivings toward mastering beauty and wishes to be transformed are universal desires During psychotherapy patients manifest or defend against these forces So it is striking that patients as well as therapists often overlook or dismiss issues about creating beauty in themselves The book introduces this seeming contradiction with the ancient myth of Pygmalion and his sculpture of a beautiful woman These enduring mythic figures represent the wish to emerge as a beautiful being and the wish for the power to create beauty in another Patients in psychotherapy often pursue these elusive goals outside clinical work rather than within treatment Manifold venues enticingly promise reinvention These activities may involve plastic surgery beauty salon make overs diet gurus elocution coaches tattooing and athletic training Seekers of beauty engage with people whom they see as agents offering them ravishing physical or charismatic attractiveness Psychotherapists may or may not be among agents seen as having the power to transform The quest for beauty is widespread and in many instances non pathological Sinkman looks at multiple avenues of understanding and appreciation of efforts toward beauty including artistic creativity and political activities However there is a spectrum of investment in creating beauty Pursuing beauty can become pathological Therapists need to watch out for its appearance outside the psychoanalytic arena Such material can be missed when the analyst falls into counter transference difficulties such as feeling invested in transforming the patient identifying with the patient s narcissistic injuries and or needs to compete or enacting battles with the patient Such difficulties interfere with attunement to patients experiences The Psychology of Beauty considers definitions of beauty gender identity themes and origins of beauty in the mother infant relationship It investigates ugliness sadomasochistic beauty pursuits evolutionary factors and aspects of aging The book

highlights emerging clinical material which has yet to gain notice and suggests what analysts may be missing and why

Companion to Minimalist and Postminimalist Music Keith Potter, Kyle Gann, 2016-03-23 In recent years the music of minimalist composers such as La Monte Young Terry Riley Steve Reich and Philip Glass has increasingly become the subject of important musicological reflection research and debate Scholars have also been turning their attention to the work of lesser known contemporaries such as Phill Niblock and Eliane Radigue or to second and third generation minimalists such as John Adams Louis Andriessen Michael Nyman and William Duckworth whose range of styles may undermine any sense of shared aesthetic approach but whose output is still to a large extent informed by the innovative work of their minimalist predecessors Attempts have also been made by a number of academics to contextualise the work of composers who have moved in parallel with these developments while remaining resolutely outside its immediate environment including such diverse figures as Karel Goeyvaerts Robert Ashley Arvo Pärt and Brian Eno Theory has reflected practice in many respects with the multimedia works of Reich and Glass encouraging interdisciplinary approaches associations and interconnections

Minimalism's role in culture and society has also become the subject of recent interest and debate complementing existing scholarship which addressed the subject from the perspective of historiography analysis aesthetics and philosophy The Ashgate Research Companion to Minimalist and Postminimalist Music provides an authoritative overview of established research in this area while also offering new and innovative approaches to the subject
