This book critically examines the role of Massive Open Online Courses (MOOCs) in higher education against the backdrop of rapid developments in online learning. Reporting on a method by which one could isolate ideologically charged words from websites, the author underlines the need to pause, question, and understand the underlying motives behind MOOCs and ask fundamental questions about their data use, commercial interests, and ability to provide good education. With its step-by-step ideological analysis, the author challenges educators, policymakers, and students alike to

reconsider the fabric of online courses and their associated platforms The book will appeal to scholars of digital education and sociology as well as scholars from the critical sciences
