Davis, 2025-09-25 A world renowned scientist offers a much needed analysis of what it takes to have good immune health helping readers navigate what can really help what is a complete myth and why Does orange juice help ward off colds And how does our age affect our ability to recover from one When it comes to immunity are we really what we eat Or how much we eat We are surrounded by big questions and big claims about enhancing our immune systems so how do we tell the fiction from the facts And ultimately what can we do to reduce our chances of getting sick World leading immunologist Daniel M Davis offers answers in this authoritative highly accessible myth busting guide to the effects of stress age exercise weight nutrition sleep vaccines and mental health on our immune health Taking us to the cutting edge of immunology research and explaining both what we know and how we know it Self Defense helps readers spot phony claims and make informed choices Davis shows us that everyone's immune system is

entirely unique and that's why we should be wary of one size fits all cures. We learn how exercise for example has all sorts of different even opposing short and long term effects on our immune health. And while our gut microbes are vitally important it's unlikely that yogurt drinks can really boost your immune system to stop you getting ill. An eye opening window into some of the astonishing possibilities for the future when it comes to distinguishing bogus and beneficial health claims about everything from vitamin D to inflammation and cancer therapies. Davis's book may be your best self defense. **The Best of Health** Sheldon Zerden, 2004. The Best of Health is a compilation and condensation of the best and most important health and nutrition books of the last 50 years. It shows the evolution of views on holistic health practices. It presents a balanced view of the natural health phenomenon including diet, exercise, vitamins and minerals, specific diseases and the mind/body connection. Its format of short synopses acts as a guide to the many books on nutrition available. This saves the consumer time and money; they read the condensations in The Best of Health and use them to evaluate which approaches they wish to study in more depth.
