The Life of Nyanatiloka Thera Nyanatiloka Thera & Hellmuth Hecker & Bhikkhu Nyanatusita, 2008 Ven Nyanatiloka was one of the pioneers of Buddhism in the modern world and the first European Buddhist monk. As the world's senior Western bhikkhu ordained in 1903, Nyanatiloka attracted many disciples through whose work his influence continues to be felt today more than fifty years after his death. Nyanatiloka was also a renowned scholar and translator of Pali scriptures. His classic *The Word of the Buddha*, written more than a century ago, is still widely read. The core of this volume consists of a translation of Nyanatiloka's autobiography written in German when he was forty-eight. The remaining thirty-one years of his life from 1926 until 1957 are presented as a biographical postscript drawn from other sources. The story of Nyanatiloka's life provides an inspiring example of one man's ability to put aside his cultural doubts and hesitations and embrace wholeheartedly a non-Western system of values, ideas, and practices. The greatest hardships do not seem to deter him any more than his achievements appear to go to his head. For those who have not experienced the turmoil and uncertainty of war and are accustomed to instant access of information through the internet, Nyanatiloka's accomplishments are all the more remarkable. *The Life of Nyanatiloka Thera* offers a fascinating insight into the formative period of Europe's encounter with the Dhamma.

Walter Scott, a Scottish novelist and poet, is hailed as the father of the historical novel, shaping literature during the early 19th century. His firsthand experiences in the Scottish Highlands greatly informed his writing, providing authenticity to his depictions of settings and social mores. His fascination with history combined with a commitment to capturing the Scottish identity led him to craft works that not only entertain but also educate readers about the cultural heritage of Scotland. This illustrated edition is a must-read for enthusiasts of historical literature and those seeking to delve into the intricate narratives of Scotland's past. Scott's adept storytelling and his ability to evoke emotion through rich allegories make this collection not only a cornerstone of English literature but also a timeless exploration of the intricacies of human experience.

arts in this milieu have not always been acknowledged Arts of Allusion reveals the object as a crucial site where pre modern craftsmen of the eastern Mediterranean and Persianate realms engaged in fertile dialogue with poetry literature painting and perhaps most strikingly architecture Lanterns fashioned after miniature shrines incense burners in the form of domed monuments earthenware jars articulated with arches and windows inkwells that allude to tents through close studies of objects from the ninth to the thirteenth centuries this book reveals that allusions to architecture abound across media in the portable arts of the medieval Islamic world Arts of Allusion draws upon a broad range of material evidence as well as medieval texts to locate its subjects in a cultural landscape where the material visual and verbal realms were intertwined Moving far beyond the initial identification of architectural types with their miniature counterparts in the plastic arts Margaret Graves develops a series of new frameworks for exploring the intelligent art of the allusive object These address materiality representation and perception and examine contemporary literary and poetic paradigms of metaphor description and indirect reference as tools for approaching the plastic arts Arguing for the role of the intellect in the applied arts and for the communicative potential of ornament Arts of Allusion asserts the reinstatement of craftsmanship into Islamic intellectual history

Japanese Art - Transcultural Perspectives Melanie Trede,Christine Guth,Mio Wakita,2024-12-02 The transcultural approach to Japanese art history embraced by the contributors to this volume centers on the dynamic aesthetic artistic and conceptual negotiations across cultural temporal and spatial boundaries It not only acknowledges material objects people and technologies as agents but also intangible practices such as knowledge and concepts as vital agencies of interaction in transcultural processes With its premise on connectivity trans territoriality networks and their transformative potential this research destabilizes categorical configurations such as center vs periphery and high vs low calling into question the classical canon of Japanese art history

Rural Space in the Middle Ages and Early Modern Age Albrecht Classen,2012-05-29 Older research on the premodern world limited its focus on the Church the court and more recently on urban space The present volume invites readers to consider the meaning of rural space both in light of ecocritical readings and social historical approaches While previous scholars examined the figure of the peasant in the premodern world the current volume combines a large number of specialized studies that investigate how the natural environment and the appearance of members of the rural population interacted with the world of the court and of the city The experience in rural space was important already for writers and artists in the premodern era as the large variety of scholarly approaches indicates The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art historical works In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space We also observe how much the rural world was a significant element already in early medieval mentality Moreover as many authors point out the impact of natural forces on premodern society was tremendous if not catastrophic
